

Parents Urge Sane Prom And Graduation Parties

Parents of seniors at Newton's two high schools, expressing pride in Newton's "juvenile decency" are urging a safe and sane celebration after the coming senior proms and graduation.

Parents of seniors at Newton High and Newton South High have formed a Senior Parent Committee under auspices of the Parent-Teachers-Students Association, and have sent letters to all parents urging their cooperation.

"Naturally, the party spirit is in the air, and we want our children to enjoy their biggest and greatest final senior activities," said a letter to all parents sent by the Senior Parent Committee.

"However, it is our feeling that the party mood needs to be kept under control. Hence, we members of the P.T.S.A.'s of both high schools should like to make the following suggestions to you as parents:

"1. Have your children confine their post-prom and post-graduation activities to the local community. By opening your homes for these parties, you can discourage your young people from being 'on the road'—enroute to summer cottages.

"2. Enjoy your children and their friends by chaperoning their parties. (You know, it is said, association with young people is one way of keeping young.)

"3. Request that your children be home at least by 3 a.m. for rest and relaxation before breakfast.

"4. Impress upon your child the consequences which may result from drinking."

The letter concluded: Both the school authorities and your P.T.S.A. genuinely hope that you will cooperate in helping to promote happy yet safe and sane celebrations. We want to be proud of Newton's 'juvenile decency.'"

City Library Gets \$19,400 In State Aid

A grant-in-aid of \$19,400.64 to the City of Newton from the Commonwealth of Massachusetts for public library services has been announced by the Board of Library Trustees. The money is being made available as part of the new State Aid to Libraries program inaugurated last year.

City Librarian, A. William Kunkel commented that the annual grants could be of valuable assistance in promoting improved library services in Newton. "This year for example," he said, "we have budgeted most of the grant for the purchase of additional library books and for such capital equipment as a microfilm reader and book charging machines."

Commenting on the significance of the State Aid program, the Librarian said: "This represents a long awaited recognition that pub-

Newton Honors War Dead With Solemn Rites

Newton honored its war dead with traditional Memorial Day rites which included a parade, tributes by prominent public figures, prayers of clergymen, volleys from firing squads and the solemn bugle notes of taps.

Speakers at memorial services held at the GAR Monument and the Veterans' Lot in the Newton Cemetery included Senator Leverett Saltonstall, Congressman Laurence Curtis, Mayor Donald L. Gibbs and ex-Mayor Howard Whitmore, Jr.

More than 50 units, including the famed U. S. Marine Corps Band, were in the marching lines which paraded before thousands of persons

Volpe's Legislative Record Poorest in Modern History

If Governor Volpe needed any additional inducement to run for the U. S. Senate next year instead of a second term in the Governorship, the Democratic-controlled State Legislature must have provided it for him in the session just concluded.

Volpe's legislative record for his first term in office is a pretty dismal one. It contains more defeats than victories, more frustration than satisfaction.

The bright predictions by Volpe in last fall's campaign that he could get along with a Democratic Legislature, could work in greater harmony with the Democratic law-makers than did ex-Governor Furcolo and get more things done, just didn't materialize.

The blunt, hard fact is that Volpe's record of legislative achievement was about the worst of any Governor in modern times. There may have been Governors who accomplished less during their first year in office, but it would be necessary to go a long way back through the pages of political history to find one.

Things are likely to get worse rather than better for Volpe because next year the shadow of an approaching election will hang darkly over the State House, and Democratic legislators will be even less disposed to vote for the program of a Republican Governor than they were this year.

Volpe's own political inexperience and ineptness were at least partly responsible for the sorry record he has to show for the 1961 legislative session. His timing was bad and his strategy worse. He started

COMMITTEE SUBMITS PAPERS — Representatives of the Newton Citizens' Committee for Dental Health submit petition papers at city hall favoring a fluoridation referendum for this city. Left to right, seated, Mrs. Lionelle Wells; City Clerk Monte G. Basbas; Mrs. Louis Pollen, and Mrs. Myron S. Simon; standing, Irving Fishman and Robert Tennant, co-chairmen of petition sub-committee.

Fluoride Referendum Looms As Committee Files Papers

According to Mrs. Myron S. Simon of Newton Centre, a member of the subcommittee, the number of signatures favoring the referendum will total "well over 5,000" when petition forms still in circulation are turned in to the City Clerk's office within the next few weeks. In addition to the 3,500 signatures filed yesterday, petition forms containing the names of approximately 1,200 persons were submitted by her group early in May, Mrs. Simon pointed out.

Members of the petition subcommittee that conducted

the signature drive are: Mr. Irving Fishman of Newton Centre and Mr. Robert Tennant of Waban, co-chairmen; Mrs. Lionelle Wells, Auburn-dale; Mrs. Louis Pollen, Newton Centre; Dr. Thomas F. A. Plaut, Newton Centre; and Mrs. Simon. Some 350 Newtonites assisted the subcommittee by circulating petition forms throughout the city during the signature drive, under the general directions of 38 zone leaders and eight area captains.

An opportunity for residents of Newton to vote in

November on fluoridation of the city's water supply was assured yesterday, when the Newton Citizens' Committee for Dental Health filed a petition at City Hall bearing the signatures of some 3,500 registered Newton voters who favored inclusion of a referendum question on fluoridation in next Fall's election ballot.

The 3,500 signatures were submitted to City Clerk Monte G. Basbas by the petition subcommittee of the Citizens' Committee as the culminating step of a three-month campaign to gain support for the proposed fluoridation referendum.

Aldermen Vote On Huge Project Seen On Monday

Members of the Board of Aldermen probably will vote next Monday night on sanctioning or blocking a proposed \$35 million development at Norumbega Park which would yield the city more than \$1 million annually in new taxes.

Before the Aldermen will be the question of whether to lift zoning restrictions in order to make possible the multi-million dollar development proposed by the Newton Corporation headed by developer Peter Kanavos.

The Planning Board already has unanimously approved suggested zoning changes which would permit the construction of the vast project.

An affirmative vote of three-fourths of all the Aldermen will be needed to allow most of the zoning changes the Kanavos group is seeking, while a two-thirds vote will be necessary to sanction the erection of the professional building.

That means that a major-

ity of the zoning changes will be approved only if 18 of the 24 Aldermen vote for them and that the votes of 16 Aldermen are necessary to make possible the construction of the professional building.

If any Aldermen are absent from the session, it will impair the chances of sanctioning the zoning changes.

It is not certain that the Aldermen will make their decision next Monday night.

They might postpone their action until June 26.

However, the members of the Aldermanic Claims and Rules Committee are scheduled to hold a conference on the matter tonight, and it is expected that they will submit their recommendation to the full board next Monday.

Accidents Injure 5

Five persons suffered injuries in a series of unrelated highway accidents in Newton over the weekend, the most serious of which was a four-car crash on the Worcester Turnpike. None of the injuries were serious.

Arthur Cohen of 18 Ridgeway Terrace, Newton, driver of one of the cars involved in the chain-reaction crash, suffered an abdominal injury, and his wife, Audrey, was treated for an injury to her right knee. Drivers of the other cars in the accident on Boylston St., at Meredith Ave., Newton Upper Falls, were not hurt.

Robert Laverdiere of Dedham was taken to Newton-Wellesley Hospital after he swerved his station wagon to avoid an object in the street, struck a pole and landed on a fairway of the Charles River Country Club, Newton Highlands.

It is a three year competition arranged in a series of elimination arguments, usually involves more than 80 clubs. Participation in the semi-final and final rounds of the competition is a high honor at the Law School.

White received the A.B. degree from Holy Cross in 1958, where he was on the Dean's List. He also was awarded the M.B.A. degree in 1960 from the University of Pennsylvania, where he was on the Director's List.

Library Aid-

(Continued from Page 1)

Libraries are a very important part of a community's educational system. Good libraries are just as necessary as good schools. They need and deserve more financial support.

Under the terms of the "State Aid to Public Libraries Act," the Library Trustees must apply for the grant each year and the library must meet certain minimum standards of service in order to qualify for it. Locally, expenditures under the grant are included in the library's annual budget request to the City and this subject to approval by the Mayor and Board of Aldermen.

The Trustees have emphasized that receipt of the grant and its subsequent allocation by the City to library purposes will be in the best interests of library services in Newton.

Supporters of the proposed

Several Aldermen, however,

Political Highlights

(Continued from Page 1)

fight which every seasoned observer on Beacon Hill knew he couldn't possibly win. He made no effort at all to do some of the things he said in his campaign he would do and which he might have been able to accomplish if he has proposed them at the right time.

State House reporters gulped when Governor Volpe, while speaking to the House of Representatives just before it adjourned, paid tribute to Speaker John F. Thompson and declared: "I think the accomplishments of this legislative session are something of which we all can be proud."

Perhaps the shining example of political hypocrisy came when Speaker Thompson presented Volpe to the House members as "a real friend, a real gentleman and a great man for the Commonwealth."

If Thompson really believed that, he must have had lapses of memory when he fired his broadsides of searing criticism at Volpe and when he gavelled Volpe's metropolitan planning bill to a sudden and untimely death. Ironically, the very same newspaper editions which reported Volpe's praise of Thompson also carried a story in which Volpe sharply criticized Thompson.

If most people don't pay too much attention to anything politicians say, their skepticism is understandable.

Governor Volpe's one really spectacular victory during the legislative session was the enactment of the so-called Old Colony bill which will enable the State to establish rapid transit service between Boston and the South Shore. He achieved that triumph only after the newspapers and business groups rallied behind him. On Volpe's first try his bill was defeated in the Senate.

Significant, too, is the fact that Volpe's plan for rapid transit service to the South Shore was a modified version of the proposal which Furcolo advanced last year. Volpe first suggested railroad service, then backed away and fell back on Furcolo's rapid transit idea.

The rail subsidy bill, which grants tax relief to the New Haven and Boston & Maine, also was an important measure, but it was enacted only because it was essential to save the State's option to purchase the Boston-Braintree branch of the Old Colony line.

A watered-down and almost meaningless Code of Ethics bill submitted by Volpe was enacted into law by the Legislature. Where that measure means very little, the first one presented by Volpe went so far that it would have been difficult to find anyone eligible to hold public office if it had been adopted.

A \$90 million high bond issue was approved, but it had so many crippling amendments on it that doubt exists whether it is workable notwithstanding Volpe's statement that he can "live with it."

Also adopted on Volpe's urging was a state-wide no-fix system for highway violations. That just about concludes the Governor's major legislative accomplishments in a five-month span.

OUR READERS SAY

Garden or Cement City?

Editor,
Newton Graphic:
Dear Editor

"What good is happiness if it can't buy money?" That seems to sum up the philosophy of the merchants and attorneys who are in favor of the grandiose development planned for Norumbega Park.

Attorney Halliday, the Chairman of our "Instant" Auburndale Citizens Committee, has mentioned possible tax savings of \$11.00 per resident, per year . . . or \$55.00 per year for an average family. Do the residents of Newton want to sell their way of life at these prices? Attorney Halliday thinks it's a bargain. I don't.

This development has already gained high favor with merchants and attorneys who would thrive on more people and more problems. What do the residents want? A Garden City? Or a Cement City? A Garden City like we have . . . or an apartment city, such as Boston, Brookline, Cambridge or Dorchester? Are we that desperate for tax dollars?

Some people think that you can turn the fringe areas of Newton into fringe benefits without adverse effects on the whole city. The Chamber of Commerce states that "such high rise apartments located in the middle of the city could be objectionable." What's the difference if cementism starts on the inside or outside? Wet cement, like wet paint, will soon cover everything in sight.

It may be a few years in coming, but a cement-city in Newton would be a far cry from the garden-city we now enjoy. Think twice about the statements that it can't affect schools, traffic and your happiness in Newton.

The merchants and attorneys may be all in favor of progress . . . but if it's going to ruin our way of life, I merely ask, "WHO NEEDS IT?"

Sincerely yours,
F. D. SULLIVAN, JR.
Auburndale

Young GOP Club Closes Season, Meeting Tonight

The Young Republican Club of Newton will hold its final formal meeting of the season tonight, June 1, at the Newton Community Center, 429 Cherry St., West Newton at 8:00 o'clock.

Special guest will be the Honorable Howard Whitmore, Jr., former mayor of Newton, who will lead a round-table discussion focusing on the pertinent issues of the day—state, national and international.

Programming will also include the year-end reports of the various standing committees and the election of officers for the coming year.

All members and prospective members are urged to attend this most important meeting. Refreshments will be served.

Despite all the talk by Volpe and his aides of the austerity program they were introducing, the State budget increased about the same amount under Volpe as it did in each of the years of the Furcolo administration.

The legislative session was the shortest in 34 years. Some political onlookers consider that a notable achievement. But to wind up their business when they did, the law-makers swept a lot of things under the rug, rushed through some bills and tossed others in the waste basket without giving them as much consideration as they should have received.

Governor Volpe might have been better off if he had forgotten about legislative speed records and had kept the Legislature in session while he made a further effort to get more of his ideas enacted into law. As matters stand, his record of legislative accomplishment for his first year in office is a rather bleak one.

Detachments of soldiers, sailors and marines were among the groups which stepped along smartly behind a Newton police detail and the Newton Veterans' Honor Guard.

Father's Role With Children Subject of Talk

At the Spring General Meeting of the John Ward School PTA held recently, Dr. Henry Wermer, child psychiatrist, spoke to the assembled parents and faculty on "The Role of the Father".

Dr. Wermer outlined the emotional needs of the child from early infancy through 12 years of age. He stated that the father's role is not a major one until the child reaches about six years. From that age the father serves

primarily as a model to the child of what a man should be. The child looks to the father for advice, answers to questions, discipline and punishment. It is not truly important for the father to play baseball with his son when he is too tired at the end of a busy day. What is important is that whatever time the father has available to spend with the child, even if it is very short, should be with the father's undivided attention.

A question period followed Dr. Wermer's talk. One of the points brought out during the questioning was the doctor's opinion that there should be more male teachers in the elementary grades so that our children do not get the idea that the world is dominated by women.

The business of the evening was the election of officers for the 1961-1962 season. Mrs. Melvin Shoul will be president; Mr. Alvin Nigrosh, first

vice-president; Mr. William Speare, second vice-president; Mrs. Stanley Jacobs, corresponding secretary; Mrs. Henry Lever, recording secretary; Mr. Haskell Kaitz, treasurer.

Refreshments were enjoyed by all as a fitting close to a

successful and satisfying PTA season.

The Massachusetts Audubon Society says the Giant Swallowtail is our largest North American butterfly. The female of this species often has a wing expanse of 8 inches.

ACCEPTS TREE MARKER — Miss Mary Nugent, principal of the Davis School, accepts tree marker from Camp Fire Girl Betsy Fessenden and Blue Bird Deborah Constantine; also in photo, Miss Ruth Smith, representative of Greater Boston Council of Camp Fire Girls.

Replace Spruce Lost In Hurricane

Camp Fire Girls Sponsor Tree Planting Project In This City

Newton Camp Fire Girls last week joined with the national organization's program of conservation when a tree planting ceremony was held at the Davis School in West Newton.

Approximately 2,000,000 trees will be planted in the United States this year by Camp Fire Girls groups in keeping with the Golden Anniversary of the organization. It is a "Thank You" gesture to the nation for fifty years of growth.

The Davis School in West Newton was selected as the

site of the local tree planting because a giant spruce, on the school grounds, was uprooted in the last hurricane.

Miss Mary Nugent, principal of the school, accepted the tree from the Camp Fire Girl Betsy Fessenden, and Ruth Smith, of the Greater Boston Council of Camp Fire Girls. Books on conservation also were placed in every school library in Newton, and in the public libraries.

The program at the Davis School was in charge of Mrs. George Rubin, leader, and

Mrs. George Gorbeg, assistant leader.

Mrs. Michael Cooper, Newton Centre, and Mrs. Charles Constantine, Blue Bird leader in West Newton, and the following Camp Fire Girls and Blue Birds, took part in the ceremony: Elan Dokton, Helen McMahon, Marjorie Feldman, Nan Rubin, Janet Valente, Jane Aihano, Virginia Israel, Patty Gorgone, Mary Dee Ramee, Barbara McPherson, Adina Press, Susan Rubin, Lois Brinkley, Deborah Constantine and Betsy Fessenden.

All athletes MUST BE registered with Herb Holm, 150 Causeway street, Boston, N.E. A.A.U. Secretary. Entries close with Chairman Ralph H. Colson, N.E.A.A.U. and Mass. Supervisor of Physical, Health and Safety Education, 24 Holmfield avenue, Mattapan 26, Mass. on Monday June 5 at midnight. There will be NO POST-ENTRIES.

Entry fee is 50 cents per event; a trophy to school, college or club having most points. Outstanding athletes will be sent to the National A.A.U. championships in New York late in June.

President's
Message

It is my sincere hope that all business firms in Newton who are not now Chamber of Commerce members, will accept the invitation of the membership committee which is being extended to these firms through its 1961 membership drive to join hands and go forward together meeting the challenges which affect the many phases of business and private life within the community.

The Newton Chamber of Commerce is today an effective tool in the hands of the present 450 businessmen and women of Newton. Its committees are working on many diverse problems which affect all facets of our community, its development, growth and prosperity.

The Newton Chamber through its 19 committees is today contributing the talents, opinions and resources of over 400 of Newton's top firms. There is certainly room for many more within the Chamber's framework.

I sincerely urge each individual businessman who is not now a member of Chamber to become a member of Chamber. It is a privilege to be a part of the Chamber and to be able to contribute to the betterment of our community.

Respectfully,
Grenfell A. Swim
President

1961 Program Of Chamber Developed By Membership

The present program of work of the Newton Chamber of Commerce was developed as a result of the membership questionnaire survey which was taken in October of 1960.

President Grenfell A. Swim, then serving as Chairman of the Program Study Committee, established the new 1961 Program of Activities based on the needs and wishes of the Chamber membership.

This program is divided into 19 major categories of committee effort. These committees are as follows:

Advertising and Publicity Committee — Will supervise and develop new advertising and publicity programs for the benefit of the Chamber itself and its business members.

Budget and Finance Committee — Will supervise the financing and accounting programs and procedures of the Chamber.

Business Education Committee — To explain the needs of Newton business as it pertains to our local education system and to work with the local educators in the establishment of a better understanding by business of our school system and by our school system of Newton business.

Christmas Decorations Committee — Will coordinate the village Christmas decoration and lighting efforts throughout the community during the Christmas season.

City Wide Retail Council — Will establish educational programs for the benefit of employers and employees engaged in retail, wholesale, and service businesses. This committee is also presently studying census tract data for the purpose of recommending the type and location of new retail businesses which are needed in our community.

The Business Planning and Development Committee — Studies and makes recommendations to the board of directors concerning major rezoning and planning issues which occur in the community. This committee has already studied and made recommendations concerning two major projects during 1961.

Congressional Action Committee — Studies and recommends policy and action to be taken on national legislative issues and provides information through meetings and bulletins to the membership on these issues. This committee also has provided two practical politics courses for the benefit of all citizens of the community.

Fire Prevention Committee — Plans and executes a forceful fire prevention program during the annual National Fire Prevention Week for the purpose of awakening the community and business interests in preventing losses by fire.

Insurance Committee — To maintain the existing study of insurance plans and policies which would be of benefit to the members of the Chamber. This committee has conducted its activity and presently is offering an insurance plan for the benefit of the Chamber membership.

Membership Committee — Establishes the yearly membership drive to attract new members into membership of

the Chamber to support the upward trend of increased programming, membership service and increased financial needs.

Membership Meetings Committee — To arrange and hold regular meetings for members of the Newton Chamber of Commerce on a quarterly basis. This committee has just recently held a most successful membership "Get Acquainted Night" on May 16.

Office Women's Workshop Committee — Establishes a one day educational program for the benefit of female office workers in Chamber firms covering subjects which will create self-improvement and improved office techniques.

Parking and Traffic Committee — Works for, in priority of need, the expansion of additional municipal parking facilities in Newton and studies, with the help of city government, the traffic problems which exist in our city today.

Personnel Managers' Club — Establishes a monthly program of educational subjects of direct interest and benefit to personnel managers of member firms.

Real Estate Committee — Creates interest in and the development of a central file in the Chamber office for all commercial and industrial property for sale or lease in Newton.

Solicitations Control Committee — Reviews and establishes the Chamber's position on applications for solicitations to Newton business firms with the aim of making better use of their charity dollars.

State Legislative Committee — Studies and recommends policy and action to be taken on state legislative issues. It provides information through meetings and bulletins to the membership to improve the business climate of Massachusetts.

Toll Road Relocation Committee — Is established to assist all business firms which will be affected if the toll road is built through Newton, to relocate within our community and also make recommendations of new areas for the expansion of present business and industries within the city.

Transportation Committee — To study the transportation needs of our community concerning rapid transit and rail and make recommendations to the members concerning legislation affecting this subject.

The result of the efforts of the above listed committees will affect every businessman and woman located within the City of Newton. The Newton Chamber of Commerce requests all business citizens of the City of Newton to lend their support to these dedicated individuals by joining with them in membership in this organization.

Important To Newton

Membership in the Chamber of Commerce is important to all local business and industrial firms. For this reason The NEWTON GRAPHIC annually assists in furthering the success of the membership campaign.

Chamber Of Commerce Sets 50-Member Quota

The Newton Chamber of Commerce will launch its 1961 membership drive on Tuesday, June 6, at 8 a.m.

Fifty of Newton's top businessmen will gather at Brae

will be given the names of Burn Country Club at 8 their prospective prospects, o'clock on the morning of membership drive kits, and re-June 6. At this early bird breakfast, these 50 workers drive kick-off speech by James

G. Roberts, executive vice-president of the Greater Boston Chamber of Commerce.

It will be the goal of these 50 top Newton businessmen to convert the successful program of the Newton Chamber of Commerce during the past year into dollar value and thereby convince a minimum of 50 prospects, one prospect per worker, that Newton Chamber of Commerce membership does not cost—it pays.

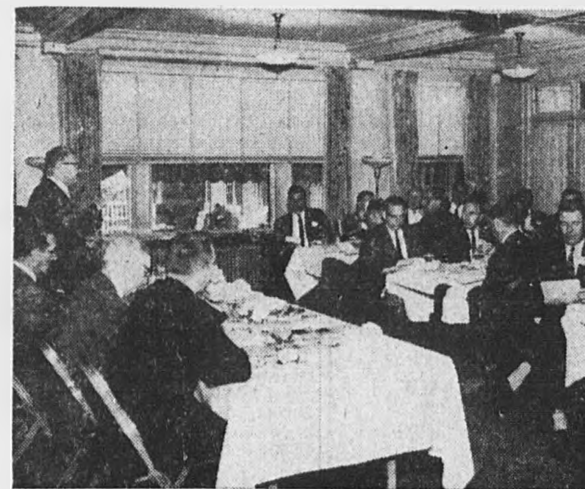

Co-chairmen of the 1961 membership drive are Philip Bram and Giles E. Mosher, Jr., who were the successful co-chairmen of last year's drive.

Following the remarks of Mr. Roberts, all workers will depart from Brae Burn Country Club at approximately 9:30 a.m. to make personal calls on their prospects. All workers will be given no more than three prospect cards and will be expected to report back at the Chamber office between 4 and 5 p.m., where refreshments will be served.

It is the goal of Co-chairmen Bram and Mosher that the 1961 membership drive will expand the Chamber membership and provide manpower and funds whereby an even more effective and active Chamber program can be established for the benefit of all Newton business.

PRETTY PARTICIPANTS — Three pretty "Secretary's Workshop" participants are shown getting "extra help" from instructor Frank Dye. 159 employees of Newton firms are enrolled in this one-day course.

MEMBERSHIP BREAKFAST — The successful 1960 Membership Drive Breakfast saw thirty-five Newton businessmen being assigned prospects by Co-chairman Philip Bram. Last year's drive netted fifty-four new members.

Unity Is Stressed In Agenda

There is an ever increasing awareness among the local businessmen of Newton to the need of unifying their efforts for one common goal.

Today, more and more concerns realize that what proves beneficial to one section proves beneficial to all. The reverse is equally true.

Nourishing this new spirit of unity has been the Newton Chamber of Commerce — the business organization which does things for the community and accomplishes business progress that many people think "just happens."

A constructive movement begun today may not be realized until next year or years afterwards. Yet it can be observed that, as the years pass and improvements are achieved, the germination of the activity probably was begun in a room of the Newton Chamber of Commerce where a group of members sat down, observed certain problems affecting the total community, determined possible solutions and then actively went about solving these problems.

What the Chamber Of Commerce Means Here

The purpose of the Newton Chamber of Commerce, as established by its present by-laws, state: "The purpose of the Newton Chamber of Commerce is to develop, encourage, promote, extend, and protect the commercial, industrial, professional, financial and general business interests of the City of Newton and neighboring areas; to promote the civic interests and the general welfare of the community; to encourage the development of the transportation and communication facilities and the various resources of the area; to procure laws and regulations desirable for the benefit of business in general and the community; and to provide a forum for the reflection of the sentiments of business regarding matters affecting its interests."

There are presently 27 members of the Chamber's Board of Directors. The newly adopted by-laws of the Chamber provide that a Director of the Chamber can serve a term of three years and must remain off the Board for at least one year thereafter. This provides an opportunity for all members of the Chamber of Commerce to become elected to this policy setting group.

All the activities of the Chamber are handled through committees and by local businessmen. The participating members serve on committees and represent the Newton Chamber of Commerce at various functions held throughout the year. Committee assignments are on a strictly voluntary basis so that everyone in the Chamber is eligible to serve on any particular committee they may wish to. In some cases, the committees are augmented by skilled professional help where required.

The Newton Chamber of Commerce is many things, but basically, it is the American free enterprise system in action. It is the union of business and professional men. It is the American businessman voicing his faith and belief in the future of our community and nation.

"BIG FOUR" OF MEETING — Chatting prior to the recent 3rd Annual Achievement Dinner and Meeting are four of the key figures who took part in the event. Left to right, Louis G. LeBlanc, 1960 Chamber president; Admiral William F. Raborn, Jr., guest speaker; Dr. Charles Stark Draper, award recipient; and Grenfell A. Swim, 1961 president.

The Body Wave is a form of permanent waving used on hair that either has a little natural wave or hair that waves easily.

It does not add appreciably to the amount of wave already in the hair, but gives such strength and resiliency to the wave as to make the hair seem naturally wavy and remarkably easy to put up.

It is for hair to which the ordinary permanent wave (lower soft) gives too much curl.

Gibbs in Fight To Save Newton Street Car Line

A vigorous protest against the proposed abandonment of the Newton-Watertown-Brigh-ton street car line, was lodged with MTA officials this week by Mayor Donald L. Gibbs.

Under a plan which MTA General Manager Thomas J. McLernon intends to put into effect next Sept. 9, service would be discontinued on the Park street-Newton Watertown line and bus service to Central Square would be substituted.

Gibbs maintained that such a step would work a serious inconvenience on many Newton residents who use the street car line and that buses would not be as satisfactory a method of transportation as the street cars.

Two Poets, a Psychiatrist, Young Newton Housewives, Receive Radcliffe Grants

Two poets and a psychiatrist, all young housewives from Newton, are among a group of 24 scholars appointed this week to the newly-formed Radcliffe Institute for Independent Study.

In what has been regarded as a "significant innovation in education and scholarship," the three, all of whom have young children, will take advantage of stipends up to \$3,000, allowing them the time and financial support to pursue studies in their respective fields.

They are: Mrs. Maxine W. Kumin, 40 Bradford Rd., Newton Highlands; Mrs. Anne Sexton, 40 Clearwater Rd., Newton Lower Falls, and Dr. Carmel Goldings, 53 Northfield Rd., Newton Center.

Mrs. Kumin 35, had her first volume of serious poetry published a few months ago, following several children's books. A native of Philadelphia, Pa., and holder of A.B. and A.M. degrees from Radcliffe, Mrs. Kumin is currently an instructor in English at Tufts University.

She has received several awards and prizes including the 1959 Poetry Society of America Annual Award for the best poem in an annual competition.

Aldermen To Vote June 26 On Norumbega Project

A decision by the Board of Aldermen on proposed zoning changes to clear the way for a suggested \$35 million development at Norumbega Park is now slated for June 26.

Members of the Aldermanic Claims and Rules Committee, who have had the matter under consideration for almost two months, will meet Monday night to deliberate further on it.

Since the June 26 meeting of the full Aldermanic Board is the last scheduled session at which the petition for the zoning changes can be acted upon, it is expected that the Claims and Rules Committee will make its report and recommendations by that time.

Under the city ordinances a petition for a zoning change must be acted upon within 90 days after a public hearing is held on it.

A hearing on the application of the Newton Corporation, headed by developer Peter Kanavos, which proposed to undertake the big Norumbega project, was held April 10.

That means the petition must be acted upon by July 10. Otherwise it would be necessary to conduct another hearing.

Plans submitted by Kanavos call for the erection of six 21-story apartment buildings, two office buildings and a 200-room suburban hotel.

The Planning Board unanimously approved the zoning changes after making some modifications which would result in the elimination of a six-story office building on the northerly side of Commonwealth avenue.

Residents in the Auburndale area have split in their attitude toward the development, many strongly supporting it, some sharply opposing it.

Backers of the plan assert that it would yield more than

Speaker Here Sees Need For Publicity Skill In Churches

REV. ROLAND JUNKINS

REV. WILBUR KINGWILL

James L. Hafford, director of public relations for the 1800-church Massachusetts Council of Churches, speaking to representatives of 23 Protestant churches at the annual dinner meeting of the Greater Newton Council of Churches in this city Tuesday night, urged the Christian church to use the latest in public relations techniques to advance the forces of Christianity throughout the world.

Speaking at the dinner meeting held in the Church of the Messiah, Auburn Street, Auburndale, Hafford stressed that:

"Our major hope in fighting both Communism and corruption is to undergo our faith with action through the use of modern publicity techniques which will tell more people what we are doing and why."

Hafford warned, "Christianity will not survive in this news-conscious world unless it can make its own good news of the gospel felt and understood by all the people."

WORK FOR COMMON CHRISTIAN GOAL

Hafford called on the clergy and lay delegates to join in working for a much higher standard of Christian living.

"Working together for this standard is vital," he said. "For reluctantly we must admit that this seems to be the age of the 'fix.' There is fixing in finance, fixing in politics, fixing of prices, fixing of the lowly traffic ticket, and even you and I fixing blame ... on anyone other than ourselves."

Volpe May Seek Sales Tax At Special Session in Fall

By JAMES G. COLBERT

Now that the cheers have subsided over the fact that the Legislature completed its business in the shortest time in 34 years, it appears there is a pretty good chance Governor Volpe will call the law-makers back into special session next September.

Volpe hasn't come right out and said he is considering such a move, but he has cautiously declared that it is not beyond the realm of possibility that he might reconvene the Legislature for the consideration of possible tax reforms.

What this probably means is that Volpe may summon the legislators back to Beacon Hill after the summer vacation to try to get a sales tax enacted. Here are the reasons for that opinion.

Pressure already is being exerted on Volpe by officials in cities and towns, where tax rates are going up, to call a special session of the Legislature for the purpose of providing some State assistance for them. That pressure is virtually certain to mount and become more intensive in the coming weeks.

Nobody is actually advocating a sales tax yet. The Mayors, City and Town Managers and Selectmen are talking the language of political diplomats and are urging a review of the State's tax structure.

Translated into plain English, that means they want the State to give more money to their communities in order to halt the upward climb of their tax rates.

Volpe already is confronted with the necessity of raising additional funds next year to balance the State budget. The only way he could give the cities and towns the financial help they seek would be to enact new taxes.

Newton Harvard Students Get Yacht Club Positions

Two Harvard College students from Newton have been elected to executive positions in the Harvard Yacht Club. John R. H. Kimball of 242 Parker Street, has been elected Rear Commodore and Philip H. Tobey of 102 Crafts Road, Chestnut Hill, secretary treasurer.

The Harvard Yacht Club is both an intra-mural sailing club and Harvard's representative in competitive regattas.

As rear commodore, Kimball runs and scores all Yacht Club races.

Tobey's job as secretary treasurer will have an added dimension this year because of the club's campaign to raise funds for the purchase of its own boats. In addition to his regular duties of keeping club business and financial records and handling club correspondence, the new secretary treasurer will also keep records of this special campaign.

Kimball, the son of Mr. and Mrs. Charles H. Kimball II, is a 1959 graduate of St. Paul's School, Concord, N. H., where he played soccer, was a member of the school newspaper staff, and winner of the Hackett Prize.

At Harvard, where he is an honors concentrator in English, he is assistant chairman of the tutors committee of Phillips Brooks House, Harvard's student social service organization, and a member of the Harvard Glee Club.

Last summer, he worked as a sailing instructor at the

Stage Harbor Yacht Club, Chatham.

After graduation from the College in 1963, Kimball hopes to do graduate work in education and eventually to go into secondary school teaching.

Tobey, son of Mr. and Mrs. Walter Tobey received a diploma with distinction from Milton Academy in 1958. He was a football letterman, sports editor of the school newspaper, a member of the nautical society, and a member of the dramatic club.

Father McCarthy is a native of Boston and is presently stationed at the Franciscan Friary in Brookline. While attending Boston College, he did some cartooning for football programs and the college weekly. After sophomore year, he decided to become a Franciscan priest. He was ordained in 1944. As a priest, his cartoons, Friar & Sad Sack, were a regular feature of a newsletter sent to Franciscan chaplains during World War II. As art director of Friar, a national Franciscan magazine, he introduced a number of cartoon features "Brother Juniper" made his first appearance in December, 1957 and he now appears in 102 newspapers in the U.S. and 13 foreign countries, with the signature "Fr. Mac." The financial return — \$30,000 a year from syndication alone — is used chiefly to help Franciscan seminary students.

Rev. Francis L. Gallagher, spiritual director of the society, will install the new friars and Paul O'Brien, president, will conduct the final meeting of the season.

Joel Wise of 105 Hyde St., Newton Highlands, ending his sophomore year at Michigan State University in East Lansing, is secretary of Sigma Alpha Mu fraternity. He is majoring in hotel management.

Political Highlights

(Continued from Page 1)

Some fiscal experts. In fact, express the belief that Volpe either will have to enact new taxes or increase existing ones before the end of his present term in order to finance the operation of the State government.

It is estimated that his present budget is at least \$5 million out of balance and that he will have to dig up another \$19 million next year. He isn't likely to be able to do that without some new taxes.

Only a sales tax would produce enough revenue to give the State the funds it needs for its own operations and leave a substantial balance for distribution to the cities and towns to lower their tax rates.

Whether Volpe could win legislative approval of a sales tax or any new or increased tax at a special session next fall is uncertain. But he certainly would have a much better chance of doing so than he would next year when an approaching election will have a major effect on everything that is done on Beacon Hill.

Legislators instinctively back away from raising taxes during an election year. If they are going to put an additional bite on the taxpayers, they want to do it far enough ahead of an election so the people will have not used to it by the time they go to the polls.

Volpe strongly advocated a sales tax when he was chairman of the Greater Boston Chamber of Commerce but as yet has given no indication of his willingness to fight for such a tax as Governor.

If he were to do so, however, you can be sure that he would prefer to do it at a special session next fall rather than at the regular session next year.

City and town officials are attaching considerable importance to a recent statement by Volpe that he is in complete agreement that property taxes in Massachusetts are too high.

That does not necessarily mean, however, that he will sponsor a sales tax or any other new tax in order to lower them.

Volpe, incidentally, said a number of things in a recent interview which are revealing concerning his thinking.

Asked if he has any political ambitions or objectives beyond the State House, he replied that his future political plans will depend on the record he achieves as Governor.

The Governor said that his greatest frustration during the legislative session resulted from the defeat of his bills for the reorganization of the State public works Department, the Metropolitan District Commission and the MTA.

Volpe intimated broadly that he will renew his fights for an overhaul of all three agencies, that in itself may mean that he is disposed to call the Legislature back into special session next fall, for there is little prospect that he could get any of the three bills enacted during an election year.

In fact, Volpe himself commented that the fact that 1962 is an election year will not make it any easier for him to get his measures through the Legislature.

He remarked in the course of his interview that some Democratic legislators apparently didn't want him to do too good a job at the recent legislative session. He might well have added that they probably will not even less anxious next year that he do a good job.

All that strengthens the impression that he'll convene a special session on Beacon Hill after the law-makers are rested and refreshed from a vacation.

Buses Set For Transportation Of 'Y' Campers

The Newton YMCA's day camp, Camp Massasoit, will offer transportation to and from camp for the first time in its eighteen seasons of operation in Newton, according to Thomas W. O'Connor, chairman of the camp committee.

The bus transportation will be available to those boys in the Oak Hill, Newton Center, Newton Highlands, Waban, Newton Upper Falls, and Thompsonville areas of Newton and to all those who wish to make connections from the above areas. There will be an additional fee for those taking the bus.

Camp Massasoit will open the first of two week periods on Monday, June 26. Applications are still being accepted for all of the periods. The other Newton YMCA day camp, Camp Chickami, in Wayland, still has a few openings in the third and fourth periods. Transportation is provided for all campers from Newton as part of the camp fees.

Camp Frank A. Day, the residence camp in East Brookfield is filled for the first four-week period but still has a few openings for the second four-week period. Information on any of the YMCA camps can be obtained at the association building.

OUR READERS SAY

Norumbega Questions

Editor The Newton Graphic

The proposed Norumbega development represents a drastic change in the concept of Newton as a suburban community. It is the obligation of the Aldermen who represent the citizens, and of your newspaper, which speaks for the citizens, to find satisfactory answers to several important questions before any further consideration is given to the proposed rezoning.

Supposedly, one major advantage of this project is the "\$1 million in tax revenues" which the town would receive if the developers' plans are followed. This is deceptively attractive. The most fundamental question to be asked is whether it is worth ANY price to endorse a project that will basically undermine the nature of our community.

A second basic question that remains unanswered is the method which the developers used to calculate the \$1 million tax revenue figure. A statement of the assumptions inherent in this calculation has never been made available for public scrutiny. The little information that is available certainly raises serious doubts about the feasibility of the entire project, and consequently the same doubts arise about the tax revenues.

The proposed apartments are planned to appeal to "older couples" with no children. It is claimed that the Newton school system will bear no increased burden. It is patently ludicrous to claim that there will be few children in these projects. What will happen is that rentals will be lowered to meet competition and younger families with children will be attracted to these apartments. These children must be educated, and the Newton school system will be expanded to accommodate them. In addition the town will have to provide the normal fire, water and police services, which cost money and increase the burden to the taxpayer.

Here are several other fundamental questions which have not been publicly answered, either by the developers or by those citizens charged with the public trust:

1. Have the developers submitted certified proof of their ability to handle a project of this magnitude from a financial and technical point of view?

2. Have the developers given any assurance that they will not resell the property, at a personal profit, after it is rezoned?

3. Have the citizens any assurance that the developers' promises will be fulfilled if the zoning is changed?

4. Have the developers submitted to the Aldermen detailed schedules of construction and architectural plans prepared by reputable experts?

5. Have the developers submitted detailed plans showing how the project will be financed? Have they indicated the nature and extent of all parties who will profit from this development?

6. Have there been any studies of the economic feasibility of the project by independent engineering and accounting firms of high reputation?

7. Have the citizens a guarantee that "older couples" will tenant the apartments so that the school system will not have to be expanded? (Per-haps the developer will agree to personally finance any expansion in the school system that may be required.)

8. Are there assurances that the project will be maintained indefinitely in a manner befitting our community.

Church Chuckles by CARTWRIGHT

"Eight signed pledges, two weren't home, and four gave me hard luck stories based on the television serial, 'John's Other Wife'."

These questions must be answered in detail before the heritage of the Newton community is summarily given away.

Of course, we must also determine what use should be made of this valuable land. Everyone must agree that the land should be used in a manner which best serves all the citizens of Newton, and protects the long-range integrity of the community. The way to determine how the needs of the community can best be met would be to engage the services of a reputable, independent city planner. He can then propose a far-sighted plan for all the undeveloped land in the town, consistent with maintaining Newton a beautiful and progressive suburban community. Certainly, the citizens who have already invested in this town have a right to this consideration.

Sincerely,
Marvin C. Grossman

Norumbega Project Poll

Editor Newton Graphic:

The Auburndale Citizens Committee is happy to report that as of this date it has received 4564 replies to its direct mailing piece which was circulated throughout the City of Newton describing the plans which Newton Corporation has for Norumbega Park. Of those replies 4,381 reflected the full approval of the senders, 15 approved with reservations while 183 or 5% were opposed to the proposal. It is also interesting to note that 297 cards bearing a total of 314 signatures were from Auburndale residents. This certainly belies any statement by anyone that the people of Auburndale are opposed to the project. The original cards have been filed with City Clerk, Monte G. Basbas.

There is little doubt that the huge majority of the people of the City of Newton are in favor of progress and keeping in step with the times so as to secure the future. A glance back over the years will show us that every time something tangible in the way of progress is sought for Newton, a long dormant "Improvement Society" is suddenly resurrected to frantically destroy what someone has labored long to create. A check of the City Hall records shows that on June 22, 1959, after careful and deliberate study, our Board of Aldermen by the unanimous vote of those present passed the Residence F (high rise) ordinance. Their intended actions were advertised according to law and a public hearing was held. Not a single person appeared in opposition. Not a single

Mental Nature Of Fatigue Is Sermon Subject

The mental nature of fatigue will be explained at Christian Science services Sunday in a Lesson-Sermon on the subject "God the Preserver of Man."

Isaiah's comforting assurance of divine strength will be read from the Bible (Isa. 40): "They that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint."

A correlative selection from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states in part (p.217): "The scientific and permanent remedy for fatigue is to learn the power of Mind over the body or any illusion of physical weakness, and so destroy this illusion, for matter cannot be weary and heavy laden."

The Golden Text is from the first chapter of Joshua: "Be strong and of a good courage; be not afraid, neither be thou dismayed; for the Lord thy God is with thee whithersoever thou goest."

DISPLAY THE FLAG on Flag Day, June 14

WEDNESDAY, JUNE 14, 1961

Our American Flag, known as the Betsy Ross Flag, Old Glory, and the Star Spangled Banner, was adopted by the Continental Congress on June 14, 1777, under a resolution submitted by John Adams of Massachusetts.

George Washington once said of our flag: "We take the stars from Heaven, the red from our Mother Country, separating it by white stripes, thus showing that we have separated from her, and the white stripes shall go down to posterity representing liberty."

Our National Flag was flown first from Fort Stanwix, in New York State, on August 3, 1777 and was raised for the first time over the State House when Lafayette visited Boston in 1824.

Our love for the flag expresses our love for our country and our hope that it may always be "one nation under God, indivisible, with liberty and justice for all."

In a proclamation of Flag Day, Governor Volpe requested the citizens to give full and fitting recognition to the occasion by a display of flags and other suitable observances in the churches, schools and public assemblies.

Another bond issue for \$200,000 for street improvement was authorized; also approved were expenditures of \$40,000 for new heating and ventilating systems at two buildings of the Hyde School, Newton Highlands, and \$20,000 for alterations to the printing department of the Technical High School.

Various sums were voted for other city departments, including \$10,000 to engage a consultant to plan construction of a new incinerator.

tween the two philosophies. "No belief suffers more under Communism than that of Christianity," he said. "Let us take full advantage of the new communications skills to tell the world and to tell our selves that the same message revealed by the Lord Christ 2,000 years ago is the answer also for our time."

Clarence Churchill of Newton, retiring president, presided.

Taking part were the Rev. Roland Junkins, executive secretary of the Newton Council and minister of Centenary Methodist Church, Newton; the Rev. Robert Gollidge of the host church, and the Rev. Wilbur J. Kingwill, rector of St. John's Episcopal Church, Newton.

College Faculty Promotion Given Newton Teacher

President William E. Park of Simmons College has announced the promotion of Lawrence Langer of 55 South Gate Park, West Newton, to assistant professor English.

Mr. Langer joined the Simmons College faculty in 1958. Prior to that time he was a teaching fellow in General Education at Harvard, and an instructor in English at the University of Connecticut.

He did his undergraduate work at the College of the City of New York, and received his master's and his doctorate from Harvard University.

He is a member of the Modern Language Association of America and of Phi Beta Kappa.

First Dual Newton High And South High Award Diplomas to 1,150

Newton's two senior high schools held graduation exercises last weekend and launched 1,150 young men and women on the seas of life.

Newton High School awarded 780 diplomas Sunday evening in Dickinson Stadium at exercises delayed a day because of Saturday's showers.

Newton South High's first graduation was transferred to the indoor gymnasium Saturday afternoon because of threatened rain and 370 graduates received their diplomas.

Graduates and guests at both graduations heard inspiring addresses at the colorful exercises.

U.S. Senator Leverett Saltonstall (R-Mass.) was the speaker at Newton South High School and said today's graduates have a responsibility of an international nature. He said the problems of the Congo and Laos are theirs, and that today's graduates must realize the importance of understanding the culture, language and customs of other nationalities.

Dr. Asa S. Knowles, president of Northeastern University, told Newton South High graduates that their greatest heritage is freedom. He urged them to develop a passion for excellence in work, habits of positive reaction to new ideas, dependability, integrity, gratitude and belief in God.

NEWTON HIGH SCHOOL

Senior cups, contributed by the Newton High School Alumni Association, are given to the boy and girl in the senior class who most nearly typify the ideal high school student in the eyes of the class and faculty.

The winners were John Hillman Lavelly Jr., and Patricia Zee Deats.

"Jay" Lavelly, who also won the Meserve Fund Award, was first vice president of the senior class, member of the National Honor Society, for three years a member of the indoor track team (captain senior year), the gymnastic team, cross-country team and high school choir.

"Pat" Deats, who also won the National Merit Scholarship, was a member of the National Honor Society, editor-in-chief of Newtonian, school yearbook; member of the school orchestra three years, member of Drama Club, French Club, Music Club, and member of All-State Orchestra junior and senior years.

POLITICAL HIGHLIGHTS

By JAMES G. COLBERT

Two Most Potent Candidates Reluctant To Run Next Year

As both Democrats and Republicans look ahead to the 1962 election, it is somewhat ironical that the potentially strongest vote-getter in each political party is not interested in running for office.

The reluctant political giants who could head their respective State tickets if they desired are former UN Ambassador Henry Cabot Lodge in the GOP and former Boston Mayor John B. Hynes on the Democratic side.

Republican leaders had hoped that Lodge, the GOP nominee for Vice President last fall, might return to the election wars next year to run for the U. S. Senate. But Lodge sent word to Governor Volpe and other party bigwigs that he would not be a candidate for anything in '62.

Democratic politicians undoubtedly differ as to the outstanding contender their party could put up next year for the Governorship or the U. S. Senate. Most experts, however, are disposed to give the nod to the quiet-mannered Hynes.

Vigorous attempts were made last year to persuade Hynes, who served a longer consecutive period as Mayor of Boston than any other man in the city's history, to emerge from political retirement and enter the gubernatorial race.

Hynes listened long and politely to the arguments to why he should run. For a time it appeared that he might yield to them. In the end he turned them down. He wanted no part of the hurly-burly of State politics.

Whether those who would like to get Hynes on the Democratic State ticket will have any better luck next year is uncertain. But it's doubtful that they will.

Gibbs Flays MTA Trolley Shift To Bus

Plans of the MTA to substitute buses next September over the present electric trolley route of the Brighton-Newton-Waterdown line to Park Street was blasted today by Mayor Donald L. Gibbs who termed it a scheme which "will take it out of the hides of the patrons." He also called it "dock-eyed."

Mayor Gibbs' outspoken attack upon the MTA plan was contained in a letter sent to members of the legislature, officials of 14 cities and towns served by the MTA. Mayor John Collins of Boston, civic organizations and the Newton Board of Aldermen. Some 100 letters were sent out.

He urged them all to rally "to save transportation to which this section of Greater Boston is rightly entitled — decent mass transportation to the heart of our core city — Boston."

The letter pointed out that the present arrangement of electric trolley cars "is a mainline of mass transportation into the heart of the city of Boston, presently made without any change of transfer."

"It serves a thriving and cultural section of the City: Boston University, Fenway Park, Copley Square, the insurance district of the Back Bay," Mayor Gibbs' letter said, "and the legion of shops, doctors, dentists located in this general area."

Mayor Loses In Teacher B Day Fight

Mayor Donald L. Gibbs attended a meeting of the Newton School Committee as an ex-officio member but lost a close fight to bring teachers into equal consideration for so-called B days, or extra time off in event of death or serious illness of a close relative.

Teachers now receive five days in addition to annual sick leave; police, firemen and other town employees get an additional three days off.

Mayor Gibbs termed the present system too vague and said it imposed too much responsibility upon the superintendents of schools. A 4 to 4 tie vote was broken by Chairman Haskell Freedman who during the mayoralty campaign was a staunch Gibbs' supporter.

So on the 5 to 4 vote teachers will be allowed five days off with full pay while absent on account of the death or serious illness of a relative.

soon as he completed requirements for this degree last January, Mr. Ross enrolled for his master's degree in business administration at Northeastern.

"I have no particular goal in mind. I just keep peeling away at it. Some people play golf, we do this," Mr. Ross commented.

His wife has been attending classes at Northeastern since 1952. "It keeps her mind active. Lets her get away from the boredom of everyday life," he added.

Initially the Ross' took courses on alternate evenings, but now come in to the campus together. They have four children, Stephen, Cynthia, 11; Lucille, 7, and Robert, 2 years old.

Ross, now vice president and chief designer for John G. Alden & Company, Inc., Boston, naval architects, began his studies back in 1947, a year after returning to life from the Navy.

During part of the two years he was in uniform, Ross was aboard a crash boat out of Norfolk, Virginia, that directed the flight of radio-controlled drone planes.

"You might call them (the drones) the predecessors of guided missiles," he commented. "Only they were stuck together with the glue pot and welding rods," he added.

Their military mission was to fly the drones, while ships' guns of all sizes, from machine guns to five inch size, blasted away.

College has presented no insurmountable problems as far as Ross is concerned. "If you make up your mind to it, you can do anything," he said.

ton. He said the proposed change would "represent a sacrifice about which the Authority has no qualms in forcing on its patrons."

"It is utterly fantastic," the letter went on, "to consider increasing the present congested traffic conditions of Commonwealth Avenue by the use of large buses. No rational traffic engineer would permit such an operation with the availability of a controlled center reservation such as is currently there and in use."

"This reservation will still be used for the Lake Street run; and yet this dock-eyed proposition would advocate its abandonment by 50 per cent and the resultant bus traffic would be dumped onto Commonwealth Avenue. Need more be said?"

Political Highlights

(Continued from Page 1)

Hynes, who is presently serving as Democratic national committeeman from Massachusetts as well as engaging in the private practice of law, is understood to be in line for appointment by President Kennedy to a high federal post in accordance with long-established tradition.

Reports have had Hynes slated to be named a commissioner of one of the important federal agencies in Washington such as the Federal Communications Commission or the Interstate Commerce Commission.

Hynes, however, is not enthusiastic about pulling up his stakes in Massachusetts in order to accept a post in Washington. Persons close to him say he would prefer to take a lesser position in Massachusetts than a higher one in the capital.

Kennedy has been extremely slow about filling federal vacancies, but there is little doubt that when he finally does get around to it he will offer Hynes some important job.

Not only was Hynes Kennedy's personal choice for Democratic national committeeman, but it was Hynes who actually got Kennedy's campaign for the U. S. Senate off the ground back in 1952.

When Kennedy was regarded as having scant chance of unseating Henry Cabot Lodge, Hynes changed the thinking of many political experts by staging a huge meeting for the then Congressman Kennedy at Boston's Parker House and getting his senatorial drive rolling in high gear.

So Hynes is much more likely to wind up in a federal position than he is running for either Governor or U. S. Senator. Should Kennedy offer him a job which doesn't appeal to him, it might be a different story.

Even without Hynes the Democratic party will have an abundance of candidates for both Governor and the U. S. Senate next year.

Former Secretary of State

OUR READERS SAY

"Post-Hearing" Activity

Dear Sir:

In recent months, Newton has had more than enough experience with hearings and "post-hearing" activities dealing with petitions for Zoning changes to permit High Rise Apartments to which there is overwhelming opposition. By now it must be apparent that there is something wrong and that early consideration must be given to remedial steps to accomplish at least the following:

- To protect and preserve due process so vital to good government;
- To relieve the members of the Board of Aldermen and other city officials of the unreasonable heavy pressure being exerted on them. Present conditions are not conducive to reasoned and independent decisions.

Observers will agree that our authorities conduct their hearings fairly and with dignity. Every effort is made to secure the essential facts and to evaluate them with the best interests of the city in mind.

It is obvious that our difficulties arise out of what may be called "Post-hearing" activities which usually consist of a variety of propaganda devices primarily used by the proponents in the period from the close of hearings to the time of decision which they seek to influence thereby. It is only natural that such activities should provoke tactics by the resident voters. The ensuing commotion is all too familiar to us at this date.

Some of the things that may well be scrutinized are the following aspects of the problem: (There are others, of course)

- The legitimacy of so-called committees created and often financed by the builders, promoters and financial backers;
- The sources of such obviously large funds as have been made available, and their amounts, provided for these committees sponsored by the proponents of projects;
- The authenticity and usefulness, if any, of the opinion polls conducted by builders and promoters;
- The methods to influence special groups, and the techniques employed.

These extravagant "post-hearing" activities will, if tolerated much longer, subvert good government. Prompt legislation is needed to control them.

D.A.L.

Joseph D. Ward reportedly is still contemplating a political comeback, but Ward would find the road back an uphill one unless he set his sights on some lesser office.

Edward M. (Ted) Kennedy, youngest brother of the President, is not listed as a candidate for either Governor or U. S. Senator. Beacon Hill observers currently believe that he will not run for either office in his first political venture and that's he's more likely to stand for Congress or the Attorney Generalship if he's a candidate for anything.

On the Republican side the top political prospects are Governor John A. Volpe, former Governor's Councilor Christian A. Herter, Jr., of Newton, former U. S. Attorney Elliot L. Richardson of Brookline and Representative Francis W. Perry of Duxbury.

It's highly improbable that the 1962 GOP primary will find any of the four running against each other. A long-range guess would be that Volpe will be the nominee for U. S. Senator, Herter the nominee for Governor, Richardson the candidate for Attorney General and Perry the nominee for Lieutenant Governor.

Volpe, incidentally, is achieving some national recognition. One magazine, for example, recently listed him as among the top Republicans in the nation. Another mentioned him as a possible choice for the GOP nomination for Vice President in 1964.

If Volpe wins election next year to the Senate or a second term in the Governorship, it's possible that he might land on the GOP national ticket in 1964 — but only if Richard M. Nixon is the Presidential standard-bearer.

Should New York's Governor Nelson Rockefeller be the Republican nominee for President, he would be virtually certain to select his running mate from another section of the country because of geographical reasons.

Volpe, of course, must survive next year's election before he can be considered for any higher honors. The Democrats, it seems, have ideas for stopping him in 1962.

Newton Residents Honored At Curry College Exercises

Newton residents played prominent roles at the 82nd Commencement exercises of Curry College held in Milton recently.

Mrs. Eva Woolston Fernald, of Vernon Court, Newton was an honored guest at the exercises and was greeted by college officials and Governor John A. Volpe. Mrs. Fernald was graduated from Curry College sixty-three years ago with the Class of 1898. She and her husband, the late Dr. Adelbert Fernald, have lived in Newton for more than fifty years.

Mr. and Mrs. Joseph Drapkin, of 1466 Commonwealth Avenue, West Newton, achieved the distinction of being the first husband and wife to hold honorary degrees from Curry College.

Mrs. Frieda M. Drapkin received her degree this year; her husband received his honorary degree on May 29, 1960. College President Donald W. Miller lauded Mrs. Drapkin for her many contributions to society and to charity.

A reception following the college exercises was held at the Drapkin home. Among those attending were, Mayor Austin D. Rhodes, Judge Paul K. Connolly, Judge Charles Taylor, Dr. Samuel A. Cohn, Dr. Irad Hardy, Realtor Martin Cere, Gordon Bloom, president of Elm Farm Foods Company; Lawrence Laskey, Rabbi Aaron Kra, Chester Dolan, president Guaranty Trust Company; Rev. Frank Maskewitz, of Maynard; and Miss Evelyn Buckstein, House Counsel of Broadcast Music Corporation of New York, a sister of Mrs. Drapkin.

Other Newton residents who attended the Curry College Commencement exercises were: Dr. Wilfred Chagnon, public relations secretary for Governor Volpe, Mrs. James Bonnar, and Mrs. F. J. Flagg, chairman of the board of consultants.

Summer Program For Special Children Opens On July 6th

The summer recreation program for physically handicapped and mentally retarded children in Newton will again be held under the direction of the Newton Recreation Department at the Spaulding School in Oak Hill. This day camp program will begin on Thursday, July 6th and will continue for six weeks to Wednesday, August 16, 1961.

There will be daily sessions Monday through Friday from 9:30 a.m. to 2:30 p.m. The outdoor facilities at the Spaulding School playground will be the center of activity. There will be a room in the school set aside as a lunch room and

for indoor activity on rainy days.

This program is made possible under General Laws Chapter 69, Section 9-D of the Commonwealth of Massachusetts which provides for State aid to the cities and towns who participate in the program.

The instructors for this program will be Mrs. Dorothy Donahue, a special teacher in the City of Malden, certified and approved by the Department of Education for this type of work, and J. Clement McCann, 88 Sargeant street, Newton, a teacher in the Brookline School Department who has worked as a co-ordinator at

Brookline High School, a re-adjustment program.

Mrs. Donahue has had many years experience working with the handicapped and retarded and is recognized as a leader in programming for this group. Mr. McCann has had a varied experience in handling re-adjustment problems of students and has also worked in camp programs for the retarded and handicapped. Mrs. Donahue and Mr. McCann are heading up our program again this year.

The Recreation Department has received excellent cooperation in organizing and planning for this program from William O'Brien of the State Department of Special Education, Miss Margaret M. Otto of the Division of Counseling Services of the Newton School Department, and William A. Perry of the Mas-

sachusetts Association for Retarded Children.

Letters have been sent out to some fifty parents of children who are classified under this category inviting them to register their child in this program. It is anticipated that those who may not be on the mailing list will call the Recreation Department for registration information.

Last year there were twenty-three registrations and an average attendance of 17.4 for each session during the six week season. The program last year was enthusiastically accepted by the parents and children alike.

Special information concerning general organization, transportation and program will be forwarded to all registering previous to the opening of the Day Camp program. Children will bring their own lunches. There will be no lunch preparation at the school but arrangements have been made for the use of a room in the school during the lunch period. This program is intended entirely to be a recreation and activity program. However, there will be strict attention to training and response proceedings.

Interested parents are urged to register their children as soon as possible so that the detail of organization can be handled previous to the opening of the camp.

Presents His Exclusive

BODY WAVE \$10.00

The Body Wave is a form of permanent waving used on hair that either has a little natural wave or hair that waves easily.

It does not add appreciably to the amount of wave already in the hair, but gives such strength and resiliency to the wave as to make the hair seem naturally wavy and remarkably easy to put up.

It is for hair to which the ordinary permanent wave (however soft) gives too much curl.

Newton Players Name Abbot New President

Active members of Newton Players, Inc. met at the home of Mr. and Mrs. Ten Broeck Cornell, 1471 Centre Street, Newton Highlands, recently for the election of officers for the coming year and transacted other business incident to the close of a fiscal year.

Officers elected were: Mr. Leonard H. Abbot, president; Mrs. David J. Rose, vice-president; Miss Rita M. Cushing, recording secretary; Mrs. Ten Broeck Cornell, corresponding secretary; Dr. Alden Q. Abbot, treasurer; Mrs. J. Cooke White, secretary for membership and admissions; Mrs. Bruno Mickleit, Mrs. Theodore C. Morrill and Miss Josephine Salvucci, directors for two years. Continuing on the board for one year are John H. Breen, Harry A. Hohman and Sam Spiloso, directors.

The recording secretary reported successful performances of the three major productions, "The Holly and the Ivy," directed by John H. Breen; "The Hollow," directed by Roger Chartrand; and "Holiday for Lovers," directed by Dr. Alden Q. Abbot.

Other activities included the Christmas party at the home of Mr. and Mrs. Leonard H. Abbot and two informal meetings at the Hunnewell Club, when one-act plays were presented.

The treasurer noted a modest increase in the bank balance over the figure presented a year ago.

The president stated that the location of the workshop was still a problem. He also suggested that members invite interested friends to apply for membership, since with a larger group the effort could be better distributed, with more ambitious productions ventured.

Following the business meeting a buffet supper and social hour were enjoyed.

Dr. Brameld Is Speaker At PTA Council Meeting

Dr. Theodore Brameld, professor of educational philosophy at Boston University, was the guest speaker at the final meeting of the season of the Newton PTA Council held recently at the Division of Instruction, Chestnut Street, West Newton.

The speaker voiced the conviction that we can afford better schools and that our relative shortcomings in this field can only be solved by the participation of all citizens.

He cited three issues that

might be discussed by PTA study groups, namely, finances and Federal aid, curriculum, and degree and limitation of public participation in policy and decisions. The meeting was presided over by Jerome Grossman, president of the PTA Council.

Edward Hawkrige, member of the Newton School Committee, reported on school committee activities. He said the committee had been very impressed with the P.T.A. Council's Spring Conference on May 18.

He asserted that the community will continue to face tax increases in order to support the schools. He termed Mass. State aid to education "appalling," but felt that Federal aid was still in the future. He urged everybody to write to their representatives in Congress to defeat the present Aid-to-Education Bill, which has already passed the House.

Mrs. Henry A. Lambert, Jr., executive secretary of the Council, gave a comprehensive account of the years activities and chairman of committees also wound up the year with annual reports.

Mrs. Richard Mintz, chairman of the Spring Conference, reported that about 800 persons had attended it representing fifteen communities from as far away as Andover and Cohasset.

The new presidents of the individual school P.T.A.'s were introduced and new committee chairmen named.

The young Newton scholarship winner plans to enter Antioch College in July and to major in the biological sciences or psychology preparatory to graduate work towards a Master's Degree.

Each Merritt Scholarship provides the student with a fund of \$1,000 annually for four years to help defray the cost of tuition, board and lodging, and other academic expenses.

Robert C. Yoffe, 29 Lansing Rd., Newton, Mass., received a letter in soccer at the annual Award Night exercises held at Leicester Junior College. Yoffe has just completed his freshman year at the two year college for men. He is majoring in business administration.

HEAD BOWLING CORPORATION—Richard A. Smith (left) of Newton and Philip Smith, of Brookline, vice-president and president respectively of General Drive-In Corporation, nationwide theatre and bowling circuit organization. The newest in the chain of luxurious Ten Pin Holiday Lanes, opens today in West Roxbury on Veterans of Foreign Wars Parkway (Route 1 at Spring street).

VFW Holiday Lanes, Most Modern Bowling Plant, Will Open Today

Another in the chain of ultra modern, luxurious Ten Pin Holiday Lanes will officially be opened to the public today (June 15) at Veterans of Foreign Wars Parkway, at Spring street, West Roxbury. Conceived by Wm. Risenman Associates, a Boston architectural firm, Holiday Lanes is its most unusual bowling center from the standpoint of design and decor. It already has created vast interest in bowling circles throughout the country, even prior to its opening.

Air-conditioned throughout, this last word in bowling elegance features the newest AMF equipment, free instruction, free ample parking, Pro shop, supervised nursery, free meeting room, and bowler's supplies.

This conveniently located 40-lane AMF Holiday Lanes is the third of many such luxurious bowling centers being built in New England by General Drive-In Corp., a nationwide theatre and bowling circuit with headquarters in Boston. A well-known resident of Brookline, Philip Smith, is the president of General and Richard A. Smith of Newton is a vice president.

An array of celebrities from the screen, stage and television will be on hand for the opening day's festivities. Among those expected are: Tony Martin, Alan King and Jaye P. Morgan, all currently

appearing in "Guys and Dolls," at the Carousel Theatre, Framingham. Alan Dary, WORL disc jockey, will join with Pete Di Pippo, former "King of the Hill," meeting all comers; Sandi Jangro, "Miss Holiday Lanes of 1961," will serve as hostess; bowling professionals and leaders in state, civic and local affairs will also be present.

Free gifts and souvenirs will be provided for all, with special door prizes including a stereo phonograph and 25 long-playing stereo or hi-fi albums. A 20-foot Thompson outboard motor boat, complete with a 40-h.p. motor and remote control unit, will be given to the first person bowling a perfect 300 game.

A highlight of the V.F.W. Holiday Lanes Development is the Amy Joy Pancake House, which will be open for breakfast to late snacks. Amy Joy will feature the most famous recipes from Sweden, Hawaii, Old Vienna and the world over. The unusual decor and clean sparkling atmosphere of this Amy Joy Pancake House should please every member of the family. Norman Ives has designed a most unusual mural, which already is being acclaimed by local art critics.

Leagues are now being

formed for old and young — new and experienced bowlers. Those interested in joining or forming a league may call Manager Al Stack at FAirview 3-0450 for information.

Public Affairs Summer Seminar Opens July 3rd

Painting, cleaning up, even uprooting a stump at the Newton Community Center, will engage the afternoon activities of Newton high school students enrolled in the new Tufts-Newton Summer Seminar in Public Affairs to be held from July 3rd through August 11.

Mornings will be spent in the study of current public issues, particularly in relation to Newton, with members of the staff and special lecturers. Time for recreation and a degree of student government are parts of the Seminar. Students will receive full academic credit for twelfth grade social studies and, of course, for college entrances.

The seminar, an all-day program open to boys and girls who have completed the eleventh grade, will have its headquarters in the new wing of the Warren Junior High School from July 3 through August 11. Three members of the high school faculties — A. Donn Kesselheim, Housemaster of Beals House; Wayne Altree, chairman of the Department of Social Studies; Bonnie Allen, teacher in the Department of English are members of a staff headed by Dr. Franklin Patterson, Lincoln Filene professor of Civic Education, Tufts University, and director of the Tufts Civic Education Center.

Since there are still a few vacancies within the program, high school juniors within commuting distance of Newton who are interested in learning more about it, should contact the Summer School Office at Newton High School. The telephone number is Woodward 9-9810, extension 267.

On the occasion of the Rose Ball, benefit of Boys' Towns

of Italy, the Joseph Palmaccio family and Captain Carlo Fava entertained their many relatives and guests at a cocktail party in their home, 789 Commonwealth Avenue, Newton Centre, prior to the affair which was held at Sidney Hill Country Club, June 2. Mrs. Palmaccio is an active member on the committee for this worthy charity.

Because of the large group, and to add a note of gayness to the evening, a bus from Copley Motor Tours of the American Sight-seeing Inc. was engaged by the hosts to

take the entire party to the club. In the group were Dr. and Mrs. George Agrifoglio, Dr. and Mrs. Paul Bradley, Dr. and Mrs. Richard Gunther, Mr. and Mrs. John Supino, Mr. and Mrs. Elmo Garofoli, Mr. and Mrs. Carlos Tosi, Mr. and Mrs. R. Martinelli, Mr.

and Mrs. John Danielson, and Mr. and Mrs. Danny Pitts. Richard Palmaccio, a student at St. Sebastian's Country Day School, and his sister Dorothy, a student at Newton Country Day School of the Sacred Heart had as their guests, Miss Suzanne Supino, Miss Deana Flynn, Miss

Linda and Louisa Tosi, Mr. R. Minotti, Mr. Carlos Tosi Jr., Mr. A. Scarpa, and Mr. Richard Cross.

DR. D. A. WAITE

Purdue Degree To Pastor, And Former Chaplain

Dr. D. A. Waite, pastor of the Immanuel Baptist Church of Newton and a former Navy chaplain, received his Doctor of Philosophy degree with a major in speech, from Purdue University at exercises held at the Indiana university recently.

Dr. Waite, who recently arrived in Newton after five years active service as a U. S. Navy chaplain, holds an A.B. degree from the University of Michigan, the M.A. from Southern Methodist, and the Th. M. and Th. D. from the Dallas Theological Seminary. The residency for the Ph.D. was completed during the years 1954-56 while Dr. Waite was a graduate teaching assistant in the Speech Department at Purdue University.

Military service interrupted the completion of the doctoral dissertation which was concluded in January, 1961. Dr. Waite, with his wife, Yvonne, and four children, Don Dave, Dick and Dianne, reside in the church parsonage at 42 Calvin Road, Newtonville.

Gibbs Urges City Traffic Commission

Mayor Donald L. Gibbs strongly feels that establishment of a traffic commission "will assist Newton materially to move forward in this vital field of traffic safety."

Legislation for establishment of such an unpaid commission was signed into law last month by Governor John A. Volpe. If approved by the Board of Aldermen, the commission would consist of the chief of police as chairman; director of public works, and chief of the fire department. It could employ engineers, experts and other assistants, subject to approval by the mayor, and would have exclusive control over laws and regulations relative to vehicular traffic.

Mayor Gibbs sent a communication to the Board of Aldermen urging favorable action, and Board president Wendell R. Bauckman referred the matter to the Claims and Rules and Street Traffic committees of the Board.

The mayor's letter said in part that "a traffic commission as outlined in this legislation has been well tested in principal, being based on a model bill which has been the number one recommendation of both the Massachusetts Safety Council and the National Council, both organizations being highly respected in this field."

Newton Boy Is Graduated At Emerson School

Hospital's Active Medical Staff Favors Fluoridation

Ninety-one per cent of the active medical staff of Newton-Wellesley Hospital have recorded themselves in favor of Newton's public water supplies, the Newton Citizen's Committee for Dental Health announced today.

According to Dr. Joseph R. Cotter, a member of the hospital's medical staff, preliminary results of an opinion poll currently being conducted at Newton-Wellesley under the auspices of the Citizens' Committee reveal that 129 members of the active medical staff have indicated that they support the idea of fluoridating Newton's water. This 91-per-cent figure for favorable responses is expected to go substantially higher, he said, when the few remaining members of the hospital's active staff are reached by the poll.

Dr. Cotter, who is treasurer of the Charles River District Medical Society as well as chairman of the hospital poll subcommittee of the Citizens' Committee, pointed out that 84 of the 129 Newton-Wellesley staff physicians who endorsed fluoridation in the poll have also asked the Citizens' Committee to supply them with literature on fluoridation for their waiting rooms.

"The results of our poll at a racket is the other man's formula for making a living without too much work."

confer following the committee meetings to night (Thursday) and prepare a recommendation for submission to the full Board next Monday.

The Planning Board have unanimously endorsed zoning changes which would allow the erection of six apartment buildings, the suburban hotel and one office building. Turned down by the Planning Board was a requested

zoning variance which would permit the construction of an office building on the north-easterly side of Commonwealth avenue.

Some Aldermen have indicated that they would favor a compromise under which a portion of the zoning changes would be approved so that a part of the development might get underway in the near future.

What happens Monday night may well depend on how many Aldermen show up for their first meeting of the summer.

The Election Problem

It has been apparent to most observers for some time that a city the size of Newton should have an election commission.

Under the circumstances City Clerk Monte G. Basbas does a remarkable job of running elections in Newton.

But the fact remains that Mr. Basbas must handle the great volume of details associated with an election in his spare time after attending to his regular duties.

Earlier this year a special Aldermanic committee was appointed to study a proposal for setting up a city election commission. It was supposed to submit its report by April 1 but requested an extension to May 1 and has not been heard from since.

This is a problem to which the city should face up as promptly as possible.

Political Highlights

(Continued from Page 1)

If the power to push a congressional gerrymander through the Legislature has passed from the Republicans to the Democrats, the ability to denounce the gerrymander in forceful and spectacular language has also shifted from the Democrats to the Republicans.

In fact, GOP leaders already are digging back in the files to cull out some of the colorful and eye-catching phrases the Democrats used in 1953 when the Republicans last came up with a proposed congressional gerrymander.

The plan which a Republican-dominated redistricting committee presented to the Legislature in 1953 would have given the GOP 10 seats in Congress from Massachusetts and left only four for the Democrats.

When Democratic orators began to shriek about the outrageous and unfair thing the Republicans were trying to do, the public reaction was so strong that ex-Gov. Herter's advisers felt that the enactment of the gerrymander might boomerang against the GOP and possibly cost Herter the 1954 election.

Herter quietly stepped in and ordered the congressional gerrymander scheme pigeonholed in a legislative committee where it was allowed to die. Apart from the justice or injustice of the situation, there is little question but that Herter's political judgment was sound and that the passage of a clearly unfair bill might well have jeopardized his reelection chances.

Now the Democratic-controlled legislative redistricting committee apparently intends to try to do what Herter stopped the Republicans from doing eight years ago.

If an unfair Republican gerrymander would have injured GOP chances in the 1954 election, it's reasonable to assume that an equally unfair Democratic gerrymander would hurt Democratic prospects in next year's election.

The Democrats may have forgotten the things they said about the proposed 1953 gerrymander which was never carried out, but the Republicans haven't.

Such terms as "political rape," "ruthless," "brzen," "contemptible," "cruel" and "smelly" were hurled by Democratic leaders as they lambasted the Republican plan. Some of those expressions will be warmed up all over again by the GOP orators.

Eight years ago, the Democrats were outraged. Now the shoes of 1953 are on opposite political feet. This time the Democrats are placing the Republicans in a position where they can shout with righteous indignation. Both sides have convenient memories.

Volpe Ghost Writers Get Signals Crossed

Governor Volpe and his speech-writers apparently got their signals crossed on the address he made at a recent \$100-a-plate Republican fund-raising dinner in New York.

Although a Republican, Volpe attended the huge birthday dinner tendered President Kennedy in the Commonwealth Armory.

Then when the text of Volpe's address before the New York GOP was given out, it contained a reference to "vote-stealing scandals in more than one state" in last November's presidential election.

It also included a slap at "the half-baked ideas concocted by the Washington Whiz Kids, now giving tips to the national administration."

"Their ideas usually have three common features: staggering costs, financed by deficit spending; guaranteed confusion and — when their impulsive schemes flop — cowardly back-passing," said the text of Volpe's speech.

Volpe was somewhat chagrined that these remarks were interpreted as a rap at the Kennedy administration. What seemed fairly obvious was that Volpe didn't read the speech until it had been released to the newspapers. Then it was too late.

OUR READERS SAY

For One-City Plan

June 17, 1961

Newton Graphic

Dear Editor:

At a recent meeting of the Oak Hill Improvement Association, I again heard the cry for an overall City Plan. We talk of haphazard zoning, of negative attitudes throughout the city. This situation could be helped by a thoughtful city-wide plan. Why don't we have one?

If the reason given that night — i.e. simple lack of appropriation — is the primary one, our Mayor and our Aldermen are frightfully remiss! How much it would save Newton in the long run — time, energy and money — to contract for just one overall plan! It makes no sense to me — nor to many other residents of this city.

Sincerely yours,
(Mrs.) Dorothy B. White

Former Solon Speaks

To the Editor,
Newton Graphic:

When we, the citizens of Newton, going to start fighting to keep this city the desirable place we prize?

We moved here, either because of its excellent school system (for which we are willing to pay), or because we thought the city was well run (with as little cheap politics as possible).

Why then should we give in to pressures to rezone 35 of our best acres at Norumbega Park, which will change the entire character of our city? WE ARE NOT FINANCIALLY DESTITUTE. We have one of the lowest tax rates of the 39 cities in the state, in spite of a debt for building 10 new schools and 13 school additions. Our city has one of the highest per capita evaluations and has been the fastest growing city in the state since 1945. Money continues to pour in to help us meet our obligations.

We do need business and welcome it, but the locations should be intelligently planned. We do not need to give up our few remaining free acres for the sake of a few dollars on our tax rate.

Let's start boosting the Newton we know, and be proud of it. We have a unique opportunity. Let your Alderman know.

Local Graduates At Connecticut College

Two Newton girls, Miss Robin F. Foster and Miss Linda Beth Michaelson, and a former Newton resident, Miss Sally Anne Foote, were graduates at the recent Commencement exercises held at Connecticut College, New London.

Miss Robin F. Foster, daughter of Dr. and Mrs. Frank P. Foster of 84 Valentine Street, West Newton, was among those receiving the Bachelor of Arts degree. A Child Development major, and Education minor, she has been a member of the Child Development Club and Outing Club, and served as Vice-President of the Freshman Class, Honor Court Judge, Circulation Manager of the "Kone" — the College yearbook, and was Chairman of the Graduation Committee. She has also served as a Volunteer worker at the underprivileged Children's Home in New London, and a Volunteer Nurses Aid to the Lawrence Memorial Hospital. Miss Foster plans to be married this summer, after which she will live in Worcester, where she will begin teaching.

Miss Linda Beth Michaelson, daughter of Mr. and Mrs. Benj.

Michaelson of 11 Trinity Terrace, Newton Centre, also received the Bachelor of Arts degree. A History major and Dean's List student, she has served as president of the Junior Class, vice-president of the Sophomore Class, and president of her dormitory in her Freshman year. She has been a member of the Modern Dance Club, a participant in the College's annual Five Arts weekend, and Choreographer of the Junior Show. Following her graduation, Miss Michaelson will attend Harvard-Radcliffe Graduate School for the Master of Arts in teaching.

Miss Sally Anne Foote, daughter of Mr. and Mrs. R. S. Foote of Haddonfield, New Jersey, formerly of Newton, was a recipient of a Bachelor of Arts degree. An English major, and Dean's List student throughout her four years, she was elected in her Senior year to the Connecticut College Chapter of Phi Beta Kappa. She has been a member of the "Shiffs", a College singing group; and the Modern Dance Group. Police and FBI Reopen Probe Of Polaroid Thefts

Newton police have requested the Federal Bureau of Investigation to join in the probe stemming from the arrest of four Boston men on charges of having burglarized tools in their possession.

According to police, the car containing the four men was halted on Needham St. after allegedly following an express truck containing Polaroid merchandise.

During the past year several truckloads of Polaroid equipment had been looted. The four pleaded innocent to charges of possessing burglar tools when arraigned Friday in Newton District Court before Judge Donald E. Mayberry, and were held in \$20,000 bail each.

They were William D. Murray, Jr., 35, of 829 E. 3rd St., and William T. Delaney, 24, of 1 Dyer St., both South Boston; James S. O'Toole, 30, of 8 F. field St., and William B. O'Sullivan, 33, of 300 Savin Hill Rd., both of Dorchester.

The arrest followed a call from Charles P. McLanely of 88 Waban Pk., Newton, a watchman, who reported men acting suspiciously near the Geigy Chemical Co., 331 Industrial Pl., Newton Highlands, while the driver of the truck changed a tire.

Fair Housing Bill Is Signed By Gov. Volpe

Members of the Newton Fair Housing Committee are pleased with a new bill to outlaw discrimination in housing, described as the strongest yet enacted by any state, and recently signed into law by Governor Volpe.

The measure allows the state to seek a court injunction compelling a landlord to hold a property vacant while a hearing is pending before the Massachusetts Commission Against Discrimination. "This law carries the strongest enforcement procedures of any measure in the country," says Walter Carrington, one of the three MCAD commissioners. "It is now possible for a person who believes that he has suffered discrimination in trying to buy or rent a house or apartment to file a complaint with the MCAD, and to be assured of getting the property applied for if the complaint is upheld."

Among those who worked to secure passage of the bill are Gerald Berlin, Assistant Attorney General in charge of the Civil Rights Division; Edward Barshak, counsel for the American Jewish Congress; and members of the Fair Housing Federation of Greater Boston, a group of citizens committees representing over 2,000 persons in 25 local communities.

The Federation's work in behalf of the new law was coordinated by attorney Norman Landstrom of Needham. Others who worked to support the measure included Mrs. Lois Kinney and Mrs. Phyllis Ryan of Brookline; Henry Nevin of Cambridge; Dorothy Hopper of Newton; Robert Morgan of Concord; and many others.

Fair Housing Practices Committees are operating in the following communities:

Arlington; Belmont; Boston (Beacon Hill-Back Bay and West Roxbury-Roslindale); Braintree; Brookline; Cambridge; Concord; Dedham; Framingham Ashland; Haverhill; Lexington; Lincoln; Medford; Natick; Nashoba (Stow, Littleton, Boxboro, Acton); Needham; Newton; North Shore; Sudbury; Waltham; Watertown; Wayland; Wellesley; and Weston.

Gibbs Kayos

(Continued from Page 1)

sailed McLernon's claim as "fantastic" and "ridiculous." Under McLernon's scheme the 44 trolley cars now in use would have been replaced by 30 buses.

All the buses would have run from Watertown to Union Square in Allston. Then the buses would alternate in going either to Kenmore Square or to Central Square in Cambridge.

Gibbs questioned whether enough passengers would want to go to Central Square to warrant running half the buses there, but the strongest objection was directed at the over-all plan.

Until Gibbs moved into action and mobilized objectors not only in Newton but in neighboring communities as well it appeared that McLernon's plan would go into effect in September. Now the indications are that it will be dropped as a result of the fight by Gibbs.

Natick Bowling Champion To Be Feted June 25th

World's Champion Candlepin Bowler Stasia Czernicki who teaches weekly at Sellow's Fairway Sports World lanes in Natick will receive one of the highest honors ever given a women sports figure at a testimonial dinner honoring her on June 25th in Dudley, Mass.

A Resolution from the Massachusetts Legislature will extend the official congratulations of the Massachusetts Senate and House of Representatives. Mrs. Czernicki is being honored for her contribution to the field of sports and for the honor and prestige she brings to Massachusetts as an exceptional athlete, a capable teacher and a symbol of dignity and good sportsmanship.

Stasia Czernicki has won every title possible to a candlepin bowler and recently shattered all records with her second World's Championship victory, defeating her nearest competitor by a wide 103-pin margin. The first women ever to win the World's Title twice, she is also the first woman to win simultaneously the World's Singles Championship and the World's All Events Championship. The All Events trophy was donated this year by Carling's Brewing Co. of Natick.

Many local people will attend the statewide testimonial to add their high regard for the "First Lady of Candlepin Bowling". Tickets are available at the Fairway Sports World, Natick and a chartered bus will leave the Fairway for those interested in traveling as a group.

Two received the Bachelor of Arts degree magna cum laude. They were Arthur L. Levin of 83 Summer St., Newton Centre, and Kester R. Morse of 79 Dedham St., Newton.

The AB degree cum laude was conferred upon Peter H. Cobb of 286 Highland Ave., West Newton; Charles C. Fenno of 100 Old English Rd., Newton; Paul J. Isenman of 36 Byfield St., Newton; George A. Mosher of 11 Prospect Ter., Newtonville; Donald W. Wilson, 39 Rochester Rd., Newton.

3 Newton Scouts To See Southwest

Three Newton Boy Scouts, members of Troop 10, Chestnut Hill, leave Monday, with a delegation of 30 Greater Boston Scouts and three Scout leaders from the shadows of Old Ironsides at Charlestown Navy Yard for a close-up look at the real old Southwest.

The local boys are William H. Ellis of 64 Prospect avenue, Richard Ferrone of 880 Beacon street, and John Brown of 263 Hammond street.

The delegation will assemble outside the Navy Yard next Monday and travel overland by bus to the Cimarron River region of New Mexico where the boys will establish headquarters and explore this wild, still unspoiled area. Living in tents for the most part, they will be at the Cimarron from July 8 to July 15, before starting their return trek home by bus.

An account of their adventures and experiences will be written for The Graphic by young Bill Ellis, a sophomore at Boston College High School. His father is William —NEWTON SCOUTS— (Continued on Page 5)

Newton Protests Trolley Rate Hike On Highland Line

Mayor Donald L. Gibbs and Alderman Joseph G. Bradley joined forces this week to spearhead the growing opposition to the proposed 100 per cent fare increase on the Highland Branch of the MTA.

A proposed 40 cents fare on the trolley line from Riverside to Boston, opened only two years ago, was approved last Thursday by the Metropolitan Transit Authority Advisory Board. The present fare is 20 cents. The boost would be effective Sept. 1, if the proposed increases are approved by the State Department of Public Works.

Under the new schedule, the fare would be 30 cents from Reservoir Station into the subway.

Both Mayor Gibbs and Alderman Bradley criticized the speed with which the proposed fare hikes were jammed through the advisory board. Gibbs and Mayor Alfred R. Voke of Chelsea were the only members of the 14-man board to vote against the plan.

The Mayor said he felt a 30 cents fare on the Highland Branch would be

equitable, but he termed the proposed 40 cents fare "way out of line." He said the fare increase was "jammed through" the advisory board meeting.

"We met on some inconsequential matters," he said, "then they recessed and they called up everyone who wasn't there and told them to come in."

"The increase was pushed through before word of it could be published in the newspapers and before the people could reach their representatives to object," Mayor Gibbs declared.

"It is not that I am against a fare increase. Maybe we need one. But I would prefer a uniform increase to 25 cents with no transfers."

Alderman Bradley voiced strenuous objection to the pro-

Norumbega Park Zone Switch Axed

Proposals to transform Norumbega Park into a \$35 million apartment and office complex suffered a surprise defeat at a special meeting of the Newton Board of Aldermen Tuesday night.

Under the rules, the Newton Corp., headed by Peter J. Kanavos of Auburndale, cannot resubmit petitions for zoning variances until next January. He is reported to have paid more than \$1 million for the famous 64-year-old amusement park in Auburndale.

Alderman Joseph G. Bradley questioned the legality of the special meeting called by Mayor Donald L. Gibbs and termed the action of his colleagues as indicative of an attitude that Newton "is too rich—that we are a garden city."

Ald. Bradley's was the lone vote on zone requests which would have permitted construction of half a dozen 21-story buildings and two six-story office buildings. The vote was 21 to 1 against the petition, and it would have required 18 votes in favor to pass.

The petition to permit construction of a motel and marina on the banks of the Charles River. The vote was 18 to 5 against the petition, and here it would have required 16 votes in favor.

Library Closed Monday, Tuesday For 4th Holiday

The Newton Free Library and all its branches will be closed on Monday, July 3, and Tuesday, July 4, according to the announcement this week.

The regular schedule of summer hours will be resumed on Wednesday, July 5.

When it became evident at the regular meeting Monday night that those favoring the zoning changes did not have the necessary votes to authorize them, Bradley first sought to have the petitions recommended to committee and later moved that they be placed on the table. Both motions were overwhelmingly rejected.

Blocked on those two moves, Bradley then raised a charter objection against the petitions which had the effect of preventing the Aldermen from voting on them Monday night.

Mayor Gibbs, however, immediately called a special Aldermanic meeting for Tuesday night.

Opposition appeared to be stronger to the zoning changes requested to allow the construction of the two professional buildings and the six apartment buildings.

—ZONE SWITCH— (Continued on Page 10)

Vote \$180,000 Public Works

The Newton Board of Aldermen voted Monday night to appropriate \$180,000 for street construction and water main installation, and approved expenditure of \$24,875 for summer school expenses.

The latter action came after Chairman Earl D. Wood of the Finance Committee said the money would be returned to the city through fees collected from pupils.

The Board also rejected a \$25,000 bid for the site of the former Newtonville fire station for construction of a restaurant. Anthony J. Zanco offered to buy 43,292 sq. ft. of land on Washington St. at Mt. Vernon St.

Recreation Department Set For Opening of Playgrounds

The Newton summer playgrounds under the direction of the Newton Recreation Department officially opened on Monday, June 26. The entire playground staff held a general meeting at the Edwin O. Childs Center on the Hawthorn playground at 9:00 A.M.

This meeting coordinated and related the many duties and responsibilities of the leadership personnel. It also explained the detail of organization of the system and the district plan of control.

District supervisors held district meetings with personnel assigned to them immediately following the general meeting. There are four playground districts under direct supervision of a district supervisor. Each district functions as a unit and arranges for their own activities and schedules. Activities and planned programs between district grounds are also scheduled.

The playgrounds officially opened for regular activities at 1:30 p.m. on Monday afternoon. Play equipment is available at all grounds and programs should get underway immediately.

The operating time schedule for playgrounds will be as follows:

9 a.m.—12 noon, 1:30—4:30 p.m. and 6 p.m.—dusk. (This does not mean dark.) Children are expected to leave the playgrounds at dusk. Leaders officially close the grounds at this time and for reasons of safety and care, all persons should leave the grounds.

Upper Falls Will Stage Its Affair On Saturday; Newton Centre Events On Tuesday

Newton will greet the glorious Fourth of July with two big celebrations this year, as the Garden City did in 1960.

The Independence Day festivities will be held at Newton Upper Falls on Saturday, three full days before the Fourth of July. The Newton Centre events will be held as usual on Tuesday, the Fourth.

Two Teachers Retire After Long Service

Two teachers, Miss Pearl Nourling and Miss Gertrude Hasty, were honored recently by fellow faculty members at Levi F. Warren Junior High School, West Newton. Both are retiring after 36 years in the Newton school system, 34 years of which have been in Warren. They have taught at Warren since 1927 when the school opened.

Special guests at the dinner at Tallino's, Chestnut Hill, were Paul C. Scarborough, the school's first principal, now retired, and Alice Philbrick, retired music teacher.

John W. McLeod, present principal, presented a purse to each of the retiring teachers on behalf of the faculty and P.T.A.

They were given a school honor pin by Miss Mary Cleveland, assistant principal, a Paul Revere bowl by John H. Byrne, Jr. representing the Newton Teachers' Association, and a tribute by Miss Esther Pepin, representing the faculty. Robert Burns was master of ceremonies.

Improvement Associations of the two neighborhoods are staging both observances. Thus the echo of bursting rockets and the bright red glare of brilliant fireworks displays from the Newton Upper Falls celebration Saturday will virtually carry over to the celebration in Newton Centre on the holiday.

This will allow Newton youngsters and their parents to enjoy both celebrations.

Originally, both celebrations were staged on the Fourth, but last year the Newton Upper Falls observance was advanced because of a conflict in dates of a fireworks official engaged to come here to set off the display. The advanced date worked so well that directors of the Improvement Association, at a meeting held Monday night, decided to repeat the arrangement again this year.

The prime purpose is to make the day a memorable one for the children, so Saturday's events will begin with the "horribles" parade at 12 noon at the Upper Falls Playground.

Association President Alfred Carroll announced that the parade will be led by Newton Fire Department engines and will move down Chestnut St.

Momentous "Fourth" of 1776

Colonials Not Of One Mind When First Vote Was Cast For Freedom

To most Americans, July 4 means the first summer holiday... picnics... fireworks. Did you ever wonder what it was like in 1776, the first time our country celebrated Independence Day?

People shrieked in the streets for joy! They danced, paraded, blew bugles, rang bells. Cannon were fired to

mark the moment. Feasts and banquets of every description were the order of the day... and a thousand toasts were raised in the name of new-found freedom.

On Bowling Green in New York, American troops and citizens together dragged down the leaden statue of reigning monarch George III... melted it into bullets for patriots' rifles.

When the Declaration of Independence was read in Savannah, Ga., people feasted riotously all day. No more unjust taxes, no more foreign soldiers to feed! After dark they burned the King of England

Cong. Curtis and Lane Hit By ADA Redistricting Plan

A plan proposed by the ADA for dividing Massachusetts into 12 new congressional districts instead of the present 14 appears to be reasonably fair and equitable even though it may be greeted with a singular lack of enthusiasm by some Congressmen as well as Democratic leaders on Beacon Hill.

That the ADA proposal will be adopted by the legislative congressional redistricting committee or the Democratic-controlled State Legislature is extremely doubtful, however, for Democratic chieftains at the State House aren't disposed to be as fair in their apportionment of seats in Congress as were the ADA members who prepared their carefully thought-out plan.

Where the Democratic leaders in the Legislature are thinking in terms of a Gerrymander which would give the Democrats 10 seats in Congress from Massachusetts and the Republicans only two, the ADA plan probably would result in a 7-5 or 8-4 split in favor of the Democrats. At the present time there are eight Democrats and six Republicans serving in Congress from Massachusetts.

Fourth Of '76 -

In effigy, read a mock funeral service over his "grave."

The royal arms were torn down from the State House in Philadelphia and hurled into a merry bonfire at Independence Square.

From the balcony at the Old State House — one of the most famous meeting places of patriots along Boston's "Freedom Trail" — the Declaration was read to loudly cheering crowds in the streets below.

America was free! For the first time, we were our own boss!

Everyone didn't hear about it at once, the way they might today with radio, television and the press speeding news around the country. Records show that copies of the Declaration of Independence were distributed July 5 to governors of several colonies — and to army generals. The first public reading took place July 8.

The bell in Philadelphia's old State House, where Congress was in session, was rung to attract the people. Colonel John Nixon read the stirring words from a platform in the yard. Subsequently, the document was read in courts and council halls, on public squares and village greens, from pulpits and platforms throughout the new States.

Few people know that our independence was actually decided on July 2 by the casting of one vote from each colony. Or that Thomas Jefferson's beautifully worded Declaration sprang from a resolution made in Congress earlier that year by Richard Henry Lee of Virginia.

Lee proposed on June 7, 1776, that the united colonies ought to be free and independent states, absolved from allegiance to the Crown. This was discussed for two days. Then, consideration of the resolution was postponed . . . presumably until a full declaration could be drawn up . . . but actually to give freedom a better chance to win!

General Galvin Is Elected As National Spokesman Of U.S. Army Reserve Officers

Maj. Gen. Michael J. Galvin of 107 Hobart Rd., Newton, was elected National Vice President of the Reserve Officers Association at the 38th annual convention held at San Antonio, Texas, last weekend.

He is the commanding officer of the 94th Fentomic Reserve Division of Massachusetts, and thus becomes the senior Army spokesman for the powerful Reserve Officers Association, an organization which comprises some 200,000 members.

The general, a former Under Secretary of Labor and an Army veteran who rose from private to Major General, was recently elected as the National President of the Senior Officers Association. He retired last month as President of the Massachusetts chapter of ROA which comprises 5000 members.

Gen. Galvin is one of the recognized authorities on Manpower and Defense, a subject on which he has authored four books and in which he has served as Advisor to the Department of Defense and the President.

His new duties will involve actively serving as spokesman for the Army's manpower and defense needs both before the Congress and the Department of Defense.

Gen. Galvin, 51, was born in Charlestown and is a graduate of Northeastern University. During WW II he won 14 medals for gallantry in action.

Newton Twirling Ace Makes Clean Sweep of Contest

Jane Hopengarten, 14-year-old baton twirling ace from Newton, made a clean sweep of Northeastern Championship titles in competition held recently at Mt. Park, Holyoke. 300 youngsters were entered in the festival.

The young Newton twirler's graceful and skillful performance in her solo, two-baton, and strutting events was outstanding. Miss Hopengarten has garnered a legion of baton twirling championships and honors and is a National Batton Twirling titlist.

Her score was 91.9 in her solo class and was the highest score of the day at Holyoke. She was presented three Northeastern championships to add to the 200 trophies and medals already won in twirling competition.

Miss Hopengarten, who is the present Massachusetts and New England Junior Champion, both in one and two batons, has also won honors in Stamford, Conn., St. Paul, Minnesota, and at the Orange Bowl, Miami, during this year.

Sermon Reveals Way To Freedom

How obedience to the law of God opens the way to freedom will be explained Sunday at Christian Science church services.

Among Scriptural passages to be read in the Lesson-Sermon entitled "God" is one from Psalm 119: "Teach me, O Lord, the way of thy statutes; and I shall keep it unto the end . . . And I will walk at liberty: for I seek thy precepts."

Man's right to freedom is also brought out in selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy which

will include: "Discerning the rights of man, we cannot fail to foresee the doom of all oppression. Slavery is not the legitimate state of man" (p.227).

Lee proposed on June 7, 1776, that the united colonies ought to be free and independent states, absolved from allegiance to the Crown. This was discussed for two days. Then, consideration of the resolution was postponed . . . presumably until a full declaration could be drawn up . . . but actually to give freedom a better chance to win!

The fact is that not all the

colonies were ready to vote for independence. By delaying the final vote on the resolution, members who favored freedom gained three precious weeks to sway doubtful or objecting voters.

As Jefferson delicately put it . . . "New York, New Jersey, Pennsylvania, Delaware, Maryland and South Carolina were not yet matured for falling from the parent stem . . . but they were fast advancing to that state. It was thought most prudent to wait a while for them."

This "waiting" period was one of the liveliest in history!

While a committee headed by Thomas Jefferson drew up the Declaration, congressmen opposing liberty were "persuaded" to change their minds.

July 1 came and unanimous consent on the Lee resolution was still in doubt. The Declaration could only be submitted if and when the resolution went through.

Delegates from New York were without instructions from their colony how to vote. The majority of Pennsylvania's delegates opposed independence.

Delaware was equally divided — one for, one against. A third congressman from Delaware, known to favor independence, was at home — 80 miles from Philadelphia. A trusted express rider was dispatched to bring him to Congress in time to cast the deciding vote for his colony. The delegate promptly mounted his horse and rode at top speed throughout the night . . . made Congress in time to vote for liberty!

South Carolina's delegation was finally convinced to vote. Yes. Two opposing Pennsylvania delegates were persuaded to stay from the July 2 session, the third was persuaded to change his vote.

On the morning of July 2, the independence party was in complete control. Lee's resolution passed unanimously . . . with New York abstaining from casting a vote either way.

It wasn't until July 4 that the Declaration of Independence was adopted. No one signed it that day. The actual signatures weren't begun until August 2 . . . and names were still being added as late as 1781. Many men authorized to sign our treasured "birth certificate of freedom" weren't even in office when it was adopted!

According to the John Hancock Mutual Life Insurance Company, when President of the Congress John Hancock put his bold signature to the immortal document, there was a 500-pound reward on his head! His fellow patriots performed equal acts of heroism by defiantly adding their names to this Declaration.

This Fourth of July and every year, think further than fireworks when the great day arrives.

The day commemorates the birth of a nation "conceived in liberty and dedicated to the proposition that all men are created equal." Try to celebrate each birthday of freedom in such a way that it will become an outstanding event in your family's year.

Falls, Richardson, Thompsonville, Williams.

The following playgrounds are open to elementary school children only — Williams, Emerson.

There have been no new playgrounds being re-opened this year but the Angier playground is being re-opened after the reconstruction work on the field. This gives two excellent playground areas within walking distance of Waban Square. Angier playground should be a very attractive area for the children from that section of Waban.

The summer staff for playground supervision and leadership totals 102. This number includes the fulltime district supervisors and special instructors in boys' and girls' crafts and tennis.

This staff is made up of 77 returning and experienced workers and 25 new workers, most of whom have had wide experience in teaching recreation work. The new workers are divided as follows: 3 teachers, 4 college graduates, 14 college students and 4 high school graduates.

Each district will plan its own special program features with the approval of the district supervisor in charge. No program activities are dictated from the central office and there is no compulsion on participation in special feature programs.

Tennis instruction will be scheduled at as many grounds as possible. Playground leaders will assist in organizing these groups at the playgrounds assigned for instruction.

Arts and crafts for boys and girls are under the direction of special supervisors. Playground leaders will participate in a crafts clinic on Tuesday and Wednesday mornings with the craft supervisors. Many new and interesting projects are introduced each year and 1961 will be no exception.

Generally the summer program will be as diversified as time, space, and interest permits. Programs will be scheduled for the following activities:

Baseball Leagues — Midgets and Juniors; Inter-Playground basketball; Tennis instruction and Tournament; Girls' Baseball and Softball; Inter-Playground sports in all girls' games; Picnics — Hikes — Tournament Games; Red Sox Baseball — August 10; Children's Theatre — July 27; Esplanade Concerts; Mu-

Safety, Sanity on Fourth

It wasn't too many years ago when fireworks were a real problem in this country as the "Glorious Fourth" came around. Kids were losing fingers, hands and eyes during the happy, hectic days celebrating the old-time holiday.

Even the adults didn't get away without some of them becoming Independence Day casualties, with burns and blisters following in the wake of setting-off the family's supply of fireworks.

Rallying under the battle-cry, "Have a safe and sane Fourth of July," parents, educators, civic leaders and elective officials finally erased the fireworks problem. Today, the kids and their parents get themselves mashed into pulp, or broken into repairable bits, roaring like old-fashioned rockets along the nation's highways in powerful automobiles. The need for a safe and sane Fourth has not diminished.

Our carefree motorists are literally driving themselves to death over the long Fourth of July weekends.

Courtesy plus consideration for the other fellow, rapidly becoming extinct with a vanishing breed of American, are advisable for the better enjoyment of everyday living. Discarded them completely on our crowded, motor-glutted speedways, and the result is deadly and disastrous.

Annually, the dire warnings are sounded as the Fourth of July approaches. Annually, the heedless rush forth to become part of the holiday's growing list of statistics, the yearly roll call of the dead and injured. They turn the holiday into a holocaust.

Yes, not so old-timers can recall with pardonable nostalgia, the popping of the old-time fire-crackers, the splash of the rockets in brilliant color against the night sky, the pin-wheels, and hissing "snakes," the delightful sparklers, all set off by Dad while his enthralled family sat around in yard, or porch or front steps.

Folks didn't stray too far from the family hearth on those old-time holidays. Maybe we could match burned and blistered fingers and ringing ears, against today's death on the highways.

Yesterday's heedless, like today's dim-wits behind the wheel, hurled themselves into eternity, prematurely. But the outlawed fireworks were pikers compared with today's motorcar in the matter of batting out impressive records of death on the Glorious Fourth. Safety and sanity — let's practice it for a better holiday.

Political Highlights

(Continued from Page 1)

Governor Volpe conceivably might sign the ADA redistricting plan or insist that a few revisions be made in it before he gave it his okay. The Governor would be certain to veto a Gerrymander bill such as the Democrats are talking about.

There is considerable doubt, incidentally, that certain influential Democrats on Beacon Hill want any congressional redistricting laws enacted. They may prefer to force all candidates for Congress to run state-wide so a possible opportunity might be created for them to go to Washington's Capitol Hill.

In listing the Congressmen who would be legislated out of office under any redistricting plan it is well to remember that the law does not require a candidate for Congress to live in the district in which he runs. Any qualified citizen may seek election to Congress in any district in the Commonwealth.

For all practical purposes, however, a candidate who ran in a district where he did not reside would be under a tremendous handicap. In modern times the only one who has been able to overcome that handicap was the late James M. Curley. He was elected to Congress in 1912 and 1914 from a district where he did not live but where he had a big following and great vote-getting strength.

Congressman Laurence Curtis would be legislated out of office and placed in the same district with Congressman Majority Leader John W. McCormack under the ADA plan which would place the first 25 wards of Boston in one congressional district. That area would be overwhelmingly Democratic. Neither Curtis nor any other Republican could hope to win in it.

Curtis, incidentally, would undoubtedly run for either Governor or U.S. Senator if a redistricting plan is enacted which leaves no opening for him to stand for reelection to Congress. If no redistricting plan is adopted and all congressional candidates are forced to run state-wide, he probably would seek a sixth term

on Capitol Hill, for he has proven strength across the Commonwealth.

An interesting sidelight is that the ADA proposal also places Edward M. (Ted) Kennedy in the same district with Majority Leader McCormack. That would close the congressional door to Kennedy if the ADA scheme were approved since it is highly improbable that he would challenge the virtually unbeatable McCormack.

Veteran Congressman Thomas J. Lane of Lawrence, like Curtis, would be a political victim of the ADA redistricting proposal. Lane and GOP freshman Senator F. Bradford Morse of Lowell would be placed together in a district which would be Republican under ordinary circumstances.

Republican Congressman Joseph W. Martin, Jr., of North Attleboro, Silvio O. Conte of Pittsfield, William H. Bates of Salem, Hastings Keith of West Bridgewater as well as Democratic Congressman Thomas P. O'Neill, Jr., of Cambridge, Torbert H. MacDonald of Malden, Edward P. Boland of Springfield, Harold D. Donohue of Worcester and Philip J. Philbin of Springfield all would be placed in districts in which they unquestionably could win reelection.

Majority Leader McCormack could have no trouble whatever in the big Boston district. In fact, he probably would no, even be opposed.

Democratic Congressman James A. Burke of Milton would wind up in a strongly

Democratic district. His only problem would be to win Democratic renomination because of the new areas in which he would be forced to run.

Such communities as Dedham, Needham, Westwood, Norwood and Canton which Burke now represents in Congress would be shifted to the district of veteran Congressman Martin, whose sector would stretch from Attleboro to Needham. Burke would pick up a sizeable number of new communities.

Congressman O'Neill's district would be drastically revised. The only areas he now represents which would be retained in his proposed new district would be his home city of Cambridge and Brighton.

He would lose East Boston, Charlestown, Ward 3 in downtown Boston and three wards of Cambridge. In their place he would get West Roxbury, Roslindale, Jamaica Plain, Allston, the entire city of Newton and the towns of Brookline and Watertown.

Even though there probably is no likelihood whatever that the Democratic-controlled Legislature will approve the ADA plan, it does point up the fact that it is possible to work out an equitable redistricting bill under which each political party would lose one seat in Congress.

Richardson and Ward May Be in A.G. Race

A long-range prediction would be that former U.S. Attorney Elliot L. Richardson of Brookline, who prosecuted the Goldfine tax-evasion case, and former Secretary of State Joseph D. Ward of Fitchburg, unsuccessful Democratic nominee for Governor last fall, may wind up as the opposing candidates for Attorney General next year.

Ward already is planning a political comeback next year. While he would have no chance of gaining the endorsement for Governor or U.S. Senator, he would be a formidable candidate for Attorney General, the office on which he apparently has fixed his sights.

Some Democratic politicians, especially the friends of ex-Governor Foster Furcolo, may back away from Ward or even try to knife him because of Ward's refusal to enter into an agreement to name Furcolo in the Massachusetts Supreme Court last December.

Furcolo wanted to resign, turn the Governorship over to Ward and have the latter name him to the State's highest judicial tribunal. When Ward rejected the idea, he lost face with many politicians.

With Attorney General Edward J. McCormack, Jr., stepping up to run for the U.S. Senate, however, there is no Democratic candidate in sight at the moment who could best Ward either in a convention or a primary for the Democratic nomination for Attorney General.

Richardson's political objective is not as certain as that of Ward.

He will seek a place on the GOP State ticket next year. Because of the widespread public attention he attracted during the celebrated Worcester case last December Republican leaders unquestionably will find a spot for him on their slate.

Window on Washington

by Your Congressman LAURENCE CURTIS • 10th District, Mass.

WASHINGTON, June 28—In a momentous decision the Supreme Court of the United States recently found that the Communist Party of the United States is not just another political party, and as such protected by our great constitutional charters of freedom, including freedom of association, freedom of speech, and the like.

The Court held that the Party must register under the terms of the Subversive Activities Control Act of 1950. The consequences of registration are so onerous as to practically outlaw the Party. That Act requires the registration of organizations controlled by a foreign power and operating to advance the objectives of the world communist movement.

The decision is significant in showing that the enemies of the American way of life cannot use our cherished constitutional guarantees of human rights in order to destroy those very rights. It proclaims that within the framework of our democratic traditions, we can protect ourselves against the abuse of our freedoms for the purpose of destroying them.

In another decision rendered on the same day, *Scales v. U. S.*, the Supreme Court upheld a conviction under the Smith Act. That Act, passed in 1940, makes it a crime to advocate the destruction of our government by force or violence, or to organize or be an active member of a group which advocates such action. Scales was convicted as a member of the Com-

munist Party. A few years ago outstanding leaders of that Party were convicted under other clauses of the Smith Act in the celebrated trial before Judge Medina.

Although the Court acted by the narrow majority of 5 to 4 in both of these cases, they nevertheless mark a momentous turning away by the Court from prior decisions which had been violently criticized as leaning towards the communist side.

The House passed last week an omnibus Housing Bill authorizing a four-year expanded program in various fields of federal housing activity, such as mortgage insurance, slum clearance, public housing, activity, such as mortgage insurance, slum clear-

Persons close to Richardson say that he might run for Governor, U.S. Senator or Attorney General.

Since Governor Volpe either will be standing for reelection or will be bidding for a place in the U.S. Senate that will close one of those positions to Richardson.

The fact that Richardson will be making his first run for elective office also makes it more likely that he will set his sights on Attorney General rather than one of the places at the head of the State ticket.

A fight between Richardson and Ward would be an extremely interesting clash.

Safety Council Warns Of Holiday Fatalities

The National Safety Council has opened a double-barreled Fourth of July safety campaign aimed at traffic accidents and drownings.

"Everyone deserves a safe, happy Fourth of July holiday," said Howard Pyle, NSC president. "It is up to all of us to help make this possible by eliminating accidents on the highways and waterways of our nation."

"Though traffic accidents are still the nation's prime killer, they were outnumbered in some states by drownings over the last Fourth of July holiday."

Last year's Fourth of July holiday traffic toll was 440 lives. Drownings and boating mishaps claimed 160 lives. Other accidents, including fireworks, firearms, heat exhaustion and falls killed more than 100 persons.

"The Fourth of July is almost always celebrated outdoors," Pyle said. "This means travel, swimming and sporting events, coupled with their inherent hazards. To get the most out of all these activities we must remember safety—safe driving and safe play means going by the rules for the protection of yourself, your family and others."

Pyle stressed two points:

1. Everyone learn to swim.

2. Install and use automobile seat belts for all driving, near home and on trips.

"Seat belts will reduce injury and help save lives in case of accidents," said Pyle.

"But the need for accident prevention—before the fact—cannot be stressed too strongly," he said.

"On this 185th anniversary of the signing of the Declaration of Independence, let us all strive to free ourselves from the tyranny of accidents."

Dear Editor:
We all know that the shortest way to Washington is — go to Harvard and turn LEFT. A day or so ago Mrs. Heath asked me if I realized that tomorrow was graduation day at Harvard College. I said that the great American Harvard of the past is no more — today it is not an institution of learning but the "Slaughter House of the American Way of Life".

All-Out Drive For Safety

12,000 Officers Will Work To Keep Us Alive Over Holiday Week-end

What has been reported as the "greatest program of traffic control in the history of the Commonwealth" has been planned by State and local law enforcement agencies and Registry of Motor Vehicles personnel in an all-out war on highway fatalities over the approaching long, Fourth of July weekend. Twelve thousand officers will be on duty.

Governor Volpe, as honorary chairman of the Highway Safety Committee, has requested that every enforcement officer in the state be on duty for traffic control over the weekend.

State Police, MDC Police, the police of every city and town, Registry Inspectors, with auxiliaries and reserves numbering 12,000 men, will work as a team from Friday night to Wednesday morning.

Enforcement officers will remove drinking drivers and speeders from the highways. Registrar Clement A. Riley has warned that drivers reported to him as improper persons will

lose their driving privilege.

Registrar Riley and Major Carl Larson, acting executive officer of the State Police, will personally direct the activities of this traffic enforcement army from mobile headquarters established in the Registrar's official car, S-8.

Postal Rates To Foreign Nations To Change July 1

Notice of change in postage rates to foreign countries, effective Saturday, July 1, has been released by the Post Office Department. The changes affect practically every class of mail, including air mail.

Postmaster Ephraim Martin listed the following as representing the new rates for letters and greeting cards: letters to Canada and Mexico will remain at 4 cents. However, letters to all other foreign countries will cost 11 cents for the first ounce and 7 cents for each additional ounce. The current rate is 8 cents for the first ounce and 5 cents for additional ounce.

Greeting cards (unsealed) to Canada and Mexico will require 3 cents postage whereas they must now have 4 cents postage. Unsealed greeting cards for all other countries will advance in postage from 4 cents to 5 cents.

Business firms and the general public sending printed matter, second class matter and parcels to foreign countries beginning July 1 should secure rate changes at their local post office.

Postmaster Martin also announced changes in domestic special delivery fees on other than first-class matter. A ten cent increase in special delivery fees becomes effective July 1. Money order rates are advanced next Saturday.

Fair Housing Group Sponsors Showing of Film

William Jones of 910 Watertown Street, West Newton, Fair Housing Practices Committee, has announced that his organization is joining in sponsorship of the New England premiere of the film "A Raisin in the Sun."

The benefit showing of the movie version of the New York Drama Critics Circle Award winning play will be at the Capri Theatre, Copley Square, Boston, on Tuesday evening, July 11th.

"A Raisin in the Sun" concerns members of a Negro family in Chicago who become embroiled in the problems of housing and civil rights. Produced by David Susskind and Philip Rose, the Columbia Pictures film stars the original cast, including Sidney Poitier, Claudia McNeil, and Ruby Dee. It is the first play written and acted by Negroes to win a major theatrical award.

The New England premiere is being co-sponsored by the Fair Housing Federation of Greater Boston, a group of citizen's committees in 25 local communities; and by the Boston Branch of the National Association for the Advancement of Colored People.

Reservations may be secured by calling Mrs. William Price at BI 4-7701.

Trolley Rate -

(Continued from Page 1)

posed fare hike on the Highland Branch, and termed it unfair to the people of Newton.

"The matter was not given proper consideration," Alderman Bradley maintained. "The proposal was steam-rollered through without giving spokesmen for the people of Newton a proper opportunity to present their views."

The 26,000 riders who use the Highland Branch of the MTA on weekdays are a fraction of the 700,000 persons who would be affected by the changes in the MTA fare structure.

The proposal of MTA General Chairman Thomas J. McLernon would eliminate all free transfers; it would retain the 20 cent fare for rapid transit and subway lines; and it would reduce the present "feeder" line fares from 15 to 10 cents.

Any person who must use a bus or trolley to reach the transit line would pay at least 30 cents to reach Boston.

Financial experts figure the increase would save \$6 million a year in the MTA's operating deficit, and would save \$2.80 on Boston's tax rate. The saving to Newton on the tax rate would amount to 17 cents, because Newton's share of the deficit is the second lowest of the 14 cities and towns the system serves.

'Brains and Brawn' Record At Meadowbrook Impressive

The officials and faculty of Meadowbrook Junior High School this week issued a report on the excellent record made by students of the school during the academic year 1961-62. A school spokesman stated that the faculty look with "justifiable pride and pleasure in the achievements."

The report pointed out that Meadowbrook students have excelled in writing and mathematics, social studies and sciences, leadership, athletics and industrial arts.

Laurie Altman, 9th grade, won first prize in the Junior Scholastic Magazine 1961 writing competition for a series of poems. She was awarded a gold key, a book of poems, a pen, and a \$35.00 check.

At the first annual state-wide Mathematics Fair held at Salem Teachers College in March, Nancy Lewis, 7th grade, "Octal Slide Rule," won a first prize plaque; David Nizel, 7th grade, "Modular Computer," and Robert Baron, 9th grade, "Graphing and Absolute Values," won second place plaques, and Richard Gold and Joan Schwartz, 7th grade, "Pythagorean Theorem," Robert Myerson, 8th, "Theorems on Inverse Operations," and Eric Kramer, 9th, "Prime Numbers," won honorable mention certificates.

In the Bnal Brith Essay Contest, "How We Can Make Democracy Live," first prize \$50.00 Bonds were awarded May 1, to Ellen Kaplan, 8th, and Robert D. Epstein, 9th. Certificates and \$25.00 bonds were earned in May by Leslie Rosoff and Franklin H. Levy, 9th, in the Annual Elks Youth Leadership Contest — Junior Division. These students submitted references, a record of

their achievements and an essay on their future plans.

The science department had many successes. Bruce Katz, "Perfusion Apparatus," and Mark Homonoff, "Growth Responses of E. Coli," 8th graders, won regional awards in the annual Future Scientists of America competition. Richard Sagall, 7th, "Diagonals of a Polygon," Gary Chafetz, "Trigonometry," Pamela Jay, "Spiral Fusion," and Stanley Cole, "Binary Computer," 8th graders received honorable mentions. Stanley Cole was a Middlesex County finalist in the annual Science Countdown conducted by Lowell Technical Institute and WBZ-TV. Bruce Katz and Mark Homonoff took first awards in the Junior High School Division of the All-Newton Science Fair and Jay Gold took a second.

At the Newton Junior Chamber of Commerce track meet in May, trophies for being the outstanding young athlete in their age groups were given to Lloyd Smith, 14, and Peter Sernick, 13. Lloyd and Peter, together with two other 8th grade boys, Richard Shaer and John Ariansen also set a Newton 440-yard relay record of 51.7 seconds. Stewart Moss, 8th, raised the Newton shot put record from 39'1" to 45'3". Meadowbrookers were especially proud because this is the first time in their five-year history that they have made the city record charts.

The Massachusetts Industrial Education Society held its 13th Annual Fair in May at Lexington. Five boys brought certificates they had won for their wood projects back to school. They were Paul Dunne, 8th, who also won a gold star for the beautiful bowl he made; Robert Tobin, 8th, a table; John Passarini, 7th, a free form dish; Douglas Tuocotte, 7th, a turned dish; Robert D. Greenberg, 7th, a cranberry scoop.

Sketches, Movies Feature Meeting of Pen Women Here

The Wellesley Branch of the National League of American Pen Women met recently at the home of Ruth C. Yount in Waban. Doris L. Goodhue and Willa B. Low were the speakers.

Mrs. Goodhue's talk was on the trip she and her husband had made to Greece and Italy and she showed some of the many sketches she had made on what she described as a "leisurely" visit.

Willa B. Low showed moving pictures of the trip made during the spring recess of the Dana Hall School when the Headmistress, Mrs. Wer-

ner Hegemann, and Mrs. Low chaperoned a group of seventeen girls on a tour through Italy.

Announcements were made of achievements of several of the Wellesley Branch members. Edna Margaret Long worked on additional programs for "Our Believing World," WBZ-TV, one featuring three girls from India which appeared on Sunday, June 18.

The continuing success of the juvenile, *Slim Green*, by Louise Dyer Harris and her son, Norman Harris, has resulted in the book's selection for printing in a Cadmus edition. A biographical sketch of Mrs. Harris, written by Branch President Katharine H. Hall, appeared in the April issue of the "Pen Woman" magazine.

Word has been received from Tulsa, Oklahoma, that Doris L. Goodhue was the only New England artist to win an award in the art contest of the mid-administration congress of the National League of American Pen Women. Her portrait drawing, "Priscilla" won a second prize. Those present at the meet-

Owners of four of the seven lots which may be added to the proposed dump extension in Auburndale opposed the taking, and requested the right to repurchase the land after it had been filled.

The coal company has requested permission to store 100,000 gallons of fuel oil and to construct a garage for 10 vehicles. The company offered to remove existing coal bins and presented a letter of approval from the Newton Chamber of Commerce.

Hits Claims, Rules Committee

Chamber Of Commerce Disapproves Of Vote Action On Norumbega

Grenfell A. Swim, president of the Newton Chamber of Commerce, after hearing of the vote of the Board of Aldermen rejecting the Norumbega Park project, stated:

"In view of the widespread popular support for the Norumbega Project and the Planning Board's approval, it is difficult for us to understand the one-sidedness of the vote by the Board of Aldermen."

"Throughout Newton, and even in Auburndale, there was considerable support for the project. Not only the Chamber, but other business groups as well, endorsed it. Apparently the board was strongly influenced by the unfavorable vote of the Claims and Rules Committee."

"The manner in which the Claims and Rules Committee handled the petitions for rezoning the park certainly left something to be desired."

"Following the public hearing, two so-called working sessions were held at which the petitioner was required to answer questions, not only from committee members, but also from an area group opposed to the project. At the second session, the Newton Chamber of Commerce requested the privilege of attending but

its request was denied. It was the Chamber's feeling that, as a principal supporter of the project and an organization which had studied the project long and exhaustively, its presence at the meeting could be useful in an unprejudiced discussion with consideration of merit."

"It is still the belief of the Chamber that the development of Norumbega Park as proposed is the best economic, practical use of the area when considered from the standpoint of the city as a whole."

"We believe that before long the city government will find it necessary to apply this broad principle of measurement when considering the many problems with which the city will have to deal in meeting head-on the rapidly moving Metropolitan push."

New Hearing Likely On Old Mason Site

Another public hearing may have to be held by the Newton Board of Aldermen on the rezoning petition for the old Mason School site.

The Board refused Monday night by a vote of 21 to 1 to take the petition from the table in an apparent desire to allow the 90-day provision to become effective, and thus force another hearing.

The 90 days will elapse early in July and the next regular meeting of the Board will be on July 17. The only vote in favor of taking the petition from the table was cast by Alderman Charles Holly.

Some weeks ago Mayor Donald L. Gibbs requested that the site be placed in business zone to permit sale of the property for \$177,000 to the Turner Associates. They have announced plans for construction of a six-story office, store and apartment block.

Two years ago the Aldermen voted in favor of the change, but a technicality subsequently resulted in a new petition. The Planning Board has voted against the change, so that the favorable vote of 18 aldermen is required.

Newton Teacher Is Bride of Dr. Francis Gassiraro

Dr. Francis E. Gassiraro and his bride, the former Miss Edwina Celeste Bacigalupo, who were married recently at St. Thomas Aquinas Church in Jamaica Plain, are enjoying a wedding trip to Jamaica and Nassau.

The bride is the daughter of Mrs. Edward P. Bacigalupo of Jamaica Plain and the late Mr. Bacigalupo. Dr. Gassiraro is the son of the late Mr. and Mrs. Leonard Gassiraro of Jamaica Plain.

Celebrating the nuptial mass was the Rev. Damian J. Sano, O.F.M. A reception was held at the Meadows in Framingham.

Mr. Walter Bacigalupo of Burlington gave his niece away. Her princess gown of ivory peau de sole was marked with jeweled Alecon lace appliques. Her full skirt terminated in a chapel-length train.

Attached to her crown of orange blossoms was an elbow-length illusion veil. Her flowers were Eucharis lilies, stephanotis and ivy.

Miss Marie Rizzo of Med-

MRS. FRANCIS GASSIRARO

ford was the bride's sole attendant.

Dr. Robert DiTullio of Quincy served as best man. The ushers were Stephen Bosco of Boston, Dr. Frank DiMasi also of Boston, Anthony Galante of Somerville and Attorney Pasquale Ventola of Cambridge were the ushers.

The bride was graduated from Notre Dame Academy in Roxbury. She received both her A.B. and her M. Ed. degrees at Boston University. Her sororities are Pi Beta Phi and Pi Lambda Theta. She is a Newton school teacher.

Dr. Gassiraro is a graduate of Boston College and the Baltimore College of Dental Surgery at the University of Maryland. He belongs to the Xi Psi Phi fraternity and has served on the Tufts University faculty in oral pediatrics. His office is in West Roxbury. The couple will live in Chestnut Hill.

4 Newton Girls Elected Officers At Regis College

Four Newton girls have been elected class officers at Regis College in Weston.

Miss Constance Crean, daughter of Mr. and Mrs. W. S. Crean of 53 Stearns street, Newton, presently a sophomore, has been elected vice president of the Junior class for the 1961-62 academic year.

The same class elected Miss Ann Cowhig as secretary. She is the daughter of Mr. and Mrs. Walter W. Cowhig of 60 White Pine road, Newton.

Miss Rosemary Shannon has been elected secretary of the Senior class. She is the daughter of Mrs. James A. Shannon of 325 Austin street, West Newton.

And Miss Michaelina Lentino of 535 Boylston street, Newton Centre, presently a freshman has been elected treasurer of the Sophomore class.

Lee Loumos Says

I just saw a TV soap commercial that is typical of what I constantly object to in advertising. It announced—"Now see the difference—repeat see the difference"—then showed a man in a shower using a deodorant soap and being rinsed off. Then the clincher—"You can't see the protection—but it's there." If that isn't double talk—I never heard any!

Now there is no double talk about Fedders Air Conditioners. I've been selling them for 11 years and I've never handled any product that does its job or stands up with hard service year after year anywhere near as well. Let me install one in your home or office and I will prove it to you. I guarantee satisfaction—period.
